

Odisha Cabinet Gives Nod To 26 Major Proposals

Bhubaneswar(KCN): The Odisha Cabinet led by Chief Minister Naveen Patnaik on Monday approved 26 major proposals of various departments.

The 72nd session of the "Cabinet Meeting" was held today in the 3rd Floor Conference Hall of Lok Seva Bhawan, Bhubaneswar under the Chairmanship of Chief Minister Naveen Patnaik. After the meeting was over, Minister Ranendra Pratap Swain, Minister Atanu Sabyasachi Nayak and Chief Secretary Pradeep Kumar Jena briefed the media persons about the approved agenda items. Out of 27 agenda items related to different departments 26 items have been approved in the Cabinet. Principal Secy, PR & DW Sushil

Kumar Lohani was also present in the press brief. The Odisha government will provide one-time livelihood assistance of Rs 1,000 to the beneficiary families under the public distribution system (PDS) in the state.

The state Cabinet headed by Chief Minister Naveen Patnaik approved a proposal in this regard today. As many as 95,90,526 families in Odisha will get the benefits under the two initiatives, said the Chief Secretary.

The state government will spend Rs 959.05 crore to provide the one-time assistance and Rs 278.69 crore to buy 1,91,81,052 jute carry bags, he added. The State Cabinet has announced to implement a new scheme SWAYAM to create self-

employed youth i.e., Swatantra Yuva Udyami. Minister Agriculture, Ranendra Pratap Swain and Minister Co-operation & Higher Education, Atanu Sabyasachi Nayak briefed Media.

"All rural unemployed youth or those with no outstanding loan for the same purpose from any Central/the State Government supported schemes in the age group of 18-35 years (18-40

years for special category) desirous of starting a new business or to expand their existing business will be provided interest free bank loan for project cost upto Rs. 1 Lakh," Chief Secretary Pradeep Jena said.

Shri Jena briefed Media

after the State Cabinet Meeting held on 12 February.

He said the applicants must fulfill the following eligibility criteria: any

individual within the age group of 18-35 years. For applicants belonging to SC/ST/PwD categories, the upper age limit will be 40 years.

The applicant's family is covered under KALIA / BSKY Scheme or having income of less than 2 lakh per annum where "Family" implies self and spouse. The applicant must have a UDYAM registered / UDYAM assisted number.

The loan amount will be covered under CGTMSE guarantee to the extent of 85% and 15% will be guaranteed by the State. Further, the burden of annual guarantee fee towards coverage under CGTMSE will be borne by the State.

A budget provision of Rs. 224 Crore will be made towards interest subvention and guarantee fee for implementing the scheme.

One Lakh Jobs For Youth

New Delhi(KCN): Prime Minister, Narendra Modi today distributed more than 1 lakh appointment letters to newly inducted recruits via video conferencing. He also laid the foundation stone of Phase I of the Integrated Complex "Karmayogi Bhavan" in New Delhi. This complex will promote collaboration and synergy among various pillars of Mission Karmayogi.

Addressing the gathering, the Prime Minister said that appointment letters are being handed out to more than 1 lakh recruits and congratulated them and their families on the occasion. He underlined that the campaign to provide job opportunities to the youth in the Government of India is continuing in full swing. Pointing out that the long time spent between the job notification and handing out appointment

letters led to an increase in bribery, the Prime Minister stated that the present government has made the entire process transparent while also completing the recruitment process under the stipulated time. He said that it has led to equal opportunities for every youth in showcasing their capabilities. "Today, every youth believes that they can cement their job position with hard work and skills", PM Modi said, highlighting that the government strives to make the youth a partner in the development of the nation. He informed that the present government in

the last 10 years has handed out jobs to the youth 1.5 times more than the previous governments. The Prime Minister also touched upon laying the foundation stone of Phase I of the Integrated Complex 'Karmayogi Bhavan' in New Delhi and said that it will strengthen the government's initiative towards capacity building.

Talking about the opening of new sectors and creation of opportunities for employment and self-employment for the youth due to the efforts of the government, the Prime Minister mentioned the Budget announcement about 1 crore rooftop solar plants which will reduce the power bill of the families and they will be able to earn money by supplying power to the grid. This scheme will create lakhs of new jobs also, he said.

included under the affordable transport scheme. With today's launch, 301 buses will now ply in 1,340 panchayats of 5 districts. More than 83 lakh people were benefited by this. According to the CMO, 44 buses were run in 313 panchayats of Bolangir benefiting 16.50 lakh people, 60 buses in 243 panchayats of Bargarh benefiting 14.22 lakh

people, 25 buses in 158 panchayats of Bhadrak benefiting 10.80 lakh people, 107 buses in 386 panchayats of Mayurbhanj benefiting 24.20 lakh people and 65 buses in 240 panchayats of Sundargarh benefiting 17.20 lakh people.

In this scheme, affordable bus service from Panchayat to Block has been facilitated by the state government. More than 1,000 buses will run across the state. In this program launched under the 5T scheme, Mission Shakti mothers have been given the responsibility of managing the buses. Transport Minister Smt. Tukuni Sahu at Bolangir, Labour Minister Sarada Prasad Naik at Sundargarh, School & Mass Education Minister Sudam Marndi, and Child Development Minister Smt. Basanti Hembra at Mayurbhanj were present at the event. In the program, 5T and Nabin Odisha Chairman V. Karthik Pandian addressed the people of Bargarh and said that on the 20th of this month, their much-awaited Gangadhar Meher Irrigation Project and Cancer Hospital will be unveiled by the Chief Minister.

PRESIDENT OF INDIA GRACES THE 200TH JANMOTSAV - GYAN JYOTI PARV SMARANOTSAV SAMAROH ON THE BIRTH ANNIVERSARY OF MAHARSHI DAYANAND SARASWATI

New Delhi,(KCN): The President of India, Smt Droupadi Murmu graced and addressed the 200th Janmotsav-Gyan Jyoti Parv Smaranotsav Samaroh on the occasion of the birth anniversary of Maharshi Dayanand Saraswati today (February 12, 2024) at Tankara, Gujarat.

Speaking on the occasion, the President said that the land of our country has been blessed by the birth of brilliant personalities like Maharshi Dayanand Saraswati. Swamiji took up the cause of social reform and composed an immortal book named 'Satyarth Prakash' to prove the truth. His ideals had a deep

impact on great personalities like Lokmanya Tilak, Lala Hansraj, Swami Shraddhanand and Lala Lajpat Rai. Swamiji and his extraordinary followers infused new consciousness and self-confidence among the people of India. The President said that Maharshi Dayanand Saraswati ji took the initiative to remove the superstitions and evil practices prevalent in 19th century Indian society. He showed society the path of modernity and social justice. He strongly opposed child marriage and polygamy. He encouraged widow remarriage. He was a strong advocate of women's education

and women's self-respect. The light spread by him dispelled the darkness of stereotypes and ignorance. That light has been guiding us since then and will continue to do so in the future too. The President was happy to note that Arya Samaj has made an invaluable contribution to women empowerment by establishing girls'

Ekamra Vatika Annual Day Celebrated

Bhubaneswar(KCN): Ekamra Vatika, a unique early learning school of International Standard run by visionary Meghna Singh Deo organized its First Annual Day Extravaganza in an innovative manner.

While tiny-tots displayed their caliber in singing, dancing, and presented in a joyous atmosphere, this made the entire audience spellbound.

Entire atmosphere was charged with loving care of teachers in guiding the kids to present their creativity in a joyful manner. Teachers in Ekamra Vatika are really caring, pointed out several parents.

Ekamra Vatika

Chairperson, Meghna Singh Deo, with her international exposure in the field of education has been nurturing the young minds in a unique and positive manner presented details on the educational enterprise. Shrimati Singh Deo has been the guiding force behind the educational institution.

Ekamra Vatika is providing a safe and happy environment for the kids and learning is a joy.

Former Chief of Army Staff of Nepal Army, General (R) Gaurav Shumsher Rana graced the occasion, while lighting the lamp.

Encouraging words of an eminent pediatrician, Dr.Ranjit Kumar Joshi

Gupteswar Forest; New Heritage

Bhubaneswar(KCN): The pristine Gupteswar forest, adjacent Forest to Gupteswar Shiva temple in Dhondrakhol reserve forest under Jeyopore Forest Division of Koraput district has been declared as the fourth Biodiversity-Heritage Site (BHS) of Odisha. The State Government issued notification to this effect on the day before last. The site spreads over 350 hectares of demarcated area. Along with its sacred grooves traditionally worshiped by the local community, the site is bestowed with a wide range of flora and fauna.

Biodiversity inventory and survey conducted by the Odisha Biodiversity Board shows the presence of at least 608 faunal species including 28 species of mammals, 188 species of birds, 18 species of amphibia, 48 species of reptiles, 45 species of fishes, 141 species of butterflies, 43 species of moths, 41

species of odonates, 30 species of spiders, six species of scorpion, and 20 species of lower invertebrates.

Significant faunal species like mugger crocodile, kanger valley rock gecko, sacred Grove Bush Frog, and avifauna like black baza, Jerdon's baza, Malabar trogon, common hill myna, white-bellied woodpecker, and banded bay cuckoo, etc have also been documented. The limestone caves of Gupteswar are adorned with 08 species of bats out of the total 16 species found in southern Odisha. Among them, two species Hipposideros galeritus and Rhinolophus rouxi are under the near threatened category of International Union for Conservation of Nature. This site also has a rich floral diversity embracing 182 species of trees, 76 species of shrubs, 177 species of herbs, 69 species of climbers, 14 species of

orchids and threatened medicinal plants like Indian trumpet tree, Indian snake root, Cumbi gum tree, Garlic pear tree, Chinese fever vine, Rohituka tree, Jodpakli, Indian jointfir, a number of wild crop relatives of ginger and turmeric. In addition to this, many agriculturally and industrially important microorganisms have also been indicated to exist in this primeval ecosystem.

Declaration of Gupteswar as BHS while boosting cultural attachment of people with this forest will also lead to conservation of its precious biodiversity. With this declaration, the State now has four BHSs. The other three are Mandasaru BHS in Kandhamala district, Mahendragiri BHS in Gajpati district, and Gandhamardan BHs in Bargarh and Bolangir district. The State Government has asked the Odisha

Biodiversity Board to prepare a long term plan for intensive conservation and development of these sites through direct participation of the local communities. An amount of Rs 35 lakhs have been provided for preparation of action plan and awareness building activities in the localities.

The nature lovers, intelligentsia, and local populace while welcoming such a decision of the Government expressed satisfaction that this forest in long run would add to livelihood of the people through eco-tourism and minor forest produce. Chairperson of the Board Dr. Meeta Biswal, and Member Secretary Dr. Nihar Ranjan Nayak congratulated the biodiversity management committee of Haladikunda (Gupteswar) Gram Panchayat along with scientists and researchers of the Board for this achievement.

MDA launch ceremony

Bhubaneswar(KCN): Under the National Filariasis Elimination Program, Union Minister of State, Ministry of Medical Health and Family Welfare, Government of India, Prof. S. P. Baghel launched the nationwide campaign of Mass Drug Administration across 11 states including Odisha, through video conferencing by consuming anti-filarial drugs. The participants joined virtually also consumed anti-filarial drugs.

Department of Health and Family welfare, Government of Odisha, has begun the Mass Drug Administration (MDA) program from

10th – 19th February 2024 for elimination of Lymphatic Filariasis (LF) in 7 endemic districts of the state i.e. Bolangir, Kalahandi, Rayagada, Cuttack, Kandhamal, Khordha and Nayagarh. Dr. Niranjan Misra, Director Public Health, Govt. of Odisha said that "During MDA round, It will be ensured that everyone except children below 2 year, pregnant women and seriously ill people must consume the prescribed dosage during the round in the presence of trained volunteer/health workers". Dr. Shubhashisha Mohanty, Joint Director Health Services (VBD)

, Govt. of Odisha said that Filaria is a serious public health problem which is spread by mosquito bites. Filariasis is one of the leading causes of long-term disability worldwide, commonly acquired in childhood but manifested in adulthood, this infection damages the lymphatic system and if left untreated, causes abnormal swelling of the body parts which is irreversible. People with Filariasis often suffer from manifestations such as Hydrocele (inflammation of the scrotum), lymphoedema (swelling in the limbs) and Chyluria (milky white

urine). The condition affects livelihoods, opportunities and working capacity of those suffering from LF and they often become a victim to social stigma. The Mass Drug Administration (MDA) is a key component in addressing the disabling disease, where anti-filarial drugs are administered to eligible populations by trained volunteers/health workers. During this MDA round around 46 lakh population will be reached out by trained volunteers/workers during booth and house to house visit.

Govt. officials and state

representatives from WHO and PCI were

also present during the

launch ceremony.

filled the minds of parents and teachers with new approach in handling their kids.

Dr.Joshi, whose anthem of life is "Happy Children-Happy World", said that he treats kids first always and these are the forerunner for nation-building and a healthy society.

Teaching process in Ekamra Vatika is unique and kids are learning protection of environment through singing and dancing. This is a visionary step as our country is going to face climate change menace in a big way and making these tiny-tots about the forthcoming scenario is really will be helpful to them, said a parent.

Team Ekamra Vatika. Children presented wonderful performances, which was really mesmerizing and Ekamra Vatika's teachers were really helping these kids in offering their creativity.

Teaching process in Ekamra Vatika is unique and kids are learning protection of environment through singing and dancing.

This is a visionary step as our country is going to face climate change menace in a big way and making these tiny-tots about the forthcoming scenario is really will be helpful to them, said a parent.

How To Avoid Common Mistakes In 2024 Board Exams

Students appearing for the board examination for session 2024 should keep these things in mind so that they do not make these mistakes in their examination and score well.

1- Not Reaching The Exam Centre On Time

The board examination is the first step of a student toward their future or we can say career after 12th, whereas, not reaching the exam centre on time can cause trouble for the student as they are not allowed to enter the exam centre.

2- Ignoring Certain Subjects/Topics

examination 2024, students should reach the exam centre at least 15 minutes before the exam's scheduled time.

Another mistake made by students is to neglect certain topics from different subjects. It is to be noted that every subject and every chapter has weightage in the board examination 2024, so skipping a topic or chapter will not be beneficial for the students.

Ignoring any specific topic can significantly impact their board exam scores and percentages. So the candidates are advised to study every topic from each subject to score well in their 2024 board examination.

3- Relying On 1 Study Material

Sometimes candidates think that

studying from only 1 source is good and beneficial for them but this is not true. Students should explore many kinds of study material i.e. online or offline while preparing for the board examination in 2024. Every source such as books, questionnaires, exam ideas, and sample paper books offers a unique perspective

and a depth of knowledge. So a candidate should study from more than 1 source and you should also revise well from the NCERT books.

4- Not Answering As Per The Word Limit

At times candidates think that the answer they have written for a particular question is enough to justify their points but sometimes it might

not be enough. Students are advised to limit their answers as per the word limit given by the authority and revise before going to the next question.

5- Lack Of Time Management

Lack of time management happens when a candidate gives extra time to solve a question. As all the students know the board examination 2024 has a duration of 3 hours and each question takes a particular amount of time to solve.

In such situations, when students have limited time to solve a question, giving extra time to a single

question will turn into a disadvantage.

6- Leaving Questions In Exam

When it comes to board exams, leaving a question unanswered can have a negative impact on your overall score. It's better to attempt every question, even if you're not completely sure of the answer.

Keep in mind that exams are designed to challenge you, and it's normal to encounter questions that you may not know the answer.

If you find yourself struggling with a question, try breaking the question into smaller parts and see if you can answer any of them.

7- Neglecting Health & Well Being

While preparing for the board examination, students start ignoring their health, proper meals, and their sleep schedule.

This would cause health issues and a lack of concentration while preparation.

Students should take a healthy and balanced diet along with proper sleep and regular exercise to keep their body healthy and fit. A healthy body and healthy mind can boost the student's memorising power, concentration, and performance.

Students who are appearing for the 2024 board examinations can keep in mind that stress is the major negative factor among the students that prevents them from scoring well in the board exams.

If you have any queries regarding the board exam 2024, feel free to ask below in the comment section. We will give you a response as soon as possible.

Love : Spiritual Way of Life

Let us think about people in our lives who were kind to us. We may have felt a special attraction or affection for them. The first people who are kind to us in our lives are generally our parents. We develop a lifelong loving bond with our parents, the first people who take care of us when we are young and helpless. As we grow up, certain people who are kind to us end up becoming our friends. Kindness helps us develop long lasting relationships.

There are many opportunities in our life for us to show loving kindness. One of the ways is kindness in deed. It may be a large act of kindness such as

Bipin Bihari Rout

others to us.

Kindness in our words and thoughts : A kind word, a word of encouragement, acknowledgement, or praise goes a long way in making someone feel close to us. A few loving, kind words can make people feel respected. Loving kindness is important even in our thoughts. We think our thoughts

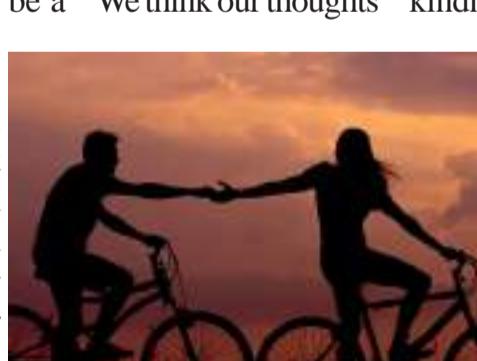

serving the sick, feeding the hungry, or providing a home for the homeless. It may be a small act, but it is remembered for a lifetime. You may open the door for someone whose hands are full. You may buy groceries for someone or give someone a ride somewhere when their car breaks down. It may even just be a smile that makes someone feel loved and cared for. We do not realize what a loving look and a smile means for someone's day or even life. We do

spirit. To do this, we need to put ourselves into the shoes of others. It means feeling the joys and pains of others. We can ask ourselves if the words we say to others are the words we want others to say to us. It means that the deeds we do to others are the deeds we want others to do to us. By cultivating loving kindness, people will

feel happy to be around us. We would make them feel safe. They would feel that we are loving and helpful. We would be the kind of people that others would want to be with.

are private, but thoughts show on our face and through our eyes. Our thoughts are expressed in the way we stand and walk. People can tell whether we care for them or not through our body language and nonverbal communication.

Our spiritual progress is also based on developing a kind

We can develop loving kindness by following the spiritual way of life. Meditation, introspection, and performing selfless service can grow kindness within us. In meditation, we are becoming one with the source of all

kindness and love, God. That is a journey of love and kindness. We are enveloped in a protective embrace of godly love. In that state, there is no place for anything but kindness. When we are immersed in divine love, only loving and kind thoughts, words, and deeds can flow from us. It is like a washing machine that expels all the soot and grime and leaves only the clean clothes. Meditation expels all the dirt and grime from our mind so that we are left only with goodness and kindness.

Let us develop loving kindness in our life for our spiritual growth. Such a life will leave a positive impression on people we come in contact with and transform this world into a better place to live in for us and those around us.

LOVE MAKES US BEAUTIFUL WHEN WE LOOK OUR HOME MIRROR

Jasaswini Pattanaik

night. Repeat the same in the morning when we get up. LOVE MAKES US BEAUTIFUL WHEN WE LOOK OUR HOME MIRROR.

Family love is word that is very hard to express. It is very rare to find a person who can put words to describe the depth of love one has towards the members of the family. But all will surely realise about it if someone has departed from the family or one

who has drawn stakes from the family and gone away. The mothers' love and fathers' efforts are the two things that haunt one who has been separated from them.

Unfriendly behavior among family members may crop up due to anger and fury which should not be taken as an indicator of lost love among the family members. These kinds of bitter memories have to be erased and one should learn move on in the interest of a happy life. Real love has got strength to overcome all difficulties that appear in a family, it helps us to share our sorrows and happiness. It brings

out openness and there will be no hidden secrets among husband and wife. Sharing of views and expressing of their intent is also important. In many families wife and husband try to keep their counterpart happy by accepting their way of life even though they are not comfortable with it, this is not the way of showing love.

This leads only to a disaster once the fact surfaces.

Is it important to be expressive in showing out our Love ? There is no harm in expressing love but some are expressive and some are not. If someone is not expressive it does not mean there is no love towards the partner. One who has real love will find love as real love is silent and within which all the other love finds speech. There is a love quote which says "If you can't understand my silence, how can you understand my words." Love felt from heart is better than one felt from ears and eyes. What say?

Award Management in Contemporary Odisha

The more I try to win over my anger, why some racketeers of literature compel me to revolt ? Sahitya Akademi, New Delhi, Odisha Sahitya Akademi and Odia Bhasha Pratisthan are now the breeding ground of literary politics.

I was once a member of Moortidevi Award selection committee headed by Prof Satyabrata Shastri. Haraprasad Das was just awarded and we ruled Odia authors out as per rules of Bhartiya Jnanpith. Proposal for Prof K. Enoch was not recommended by their language advisory panel, but his daughter sent the proposal. Dr K. Shrinibas Rao and I strongly advocated for him as he was the best. He eventually got the award.

Similarly, I advocated for Choudhury Hemakanta Mishra for Sahitya Akademi

Translation Award though a book of my dear friend and brother Prof Basanta Kumar Panda was there in the list. Alas, some useless vested interest

Advisory Panel Members with bribe from a specific author concerned have recommended some top awards in Odia in this calendar year. They have downgraded the status of Odia Literature and should be insulted publicly. Empty vessel sounds much. This proverb is applicable to most of the authors from Odisha who maintain a so called Fan Club after grabbing some awards with lucrative prize money. Now, there's publicity about this author that he has become international !

By writing a few articles in English or being translated to any language recognised by UN, one can't be considered as an International Author unless has a sizeable number of following world wide. For me, Jayanta Mahapatra and Manoj Das , are the only

international authors from Odisha. Today our language and culture are in danger. Languages can't be property of any religious groups . Next to Hindi, Urdu is our second people's language in Indian Subcontinent. I have lived at Lucknow, the heartland of Urdu for two years and have several author friends writing in Urdu in India and Pakistan. My best wishes to all my friends speaking or writing in this sweet classic language of people.

I spoke to a friend two days ago. He didn't tell me that he is going to hold a literary function, possibly he had scheduled guests. But ,he told me that he suffered from

Covid twice last year. Strange that we have stopped our literary communication !

Because of my adverse views, I have been portrayed as a critic of award winners. As such, being an Anam, I have never run after awards nor have made lobby for it

using my position or nexus. But, after writing for half a century I have developed my distinct views which I can't stop or suppress now.

For some reason or the other, Sahitya Akademi award has been taken seriously

Literature and to outstanding young authors. I was a member of the committee for institution of these two awards.

To get a Sahitya Akademi award is a great recognition . Our country has almost a billion of

Indian languages. Writing by Children and young adults should also be awarded. Besides, if a senior author doesn't get Sahitya Akademi award by the age of 60, there should be a mechanism to honour the senior authors with a plaque and a certificate of appreciation like a Hall of Fame. But, once in this Hall of Fame, the concerned authors should not be considered for any Sahitya Akademi award in whatever genre. This will not only stop the anomaly, but also the unnecessary dishonour and disgust among senior citizens who are genuine authors . The country has responsibility to honour art and culture.

Political patronage and interference should stop in the consideration of Literature. Sahitya Akademi should now

act as a watchdog and not as a puppet or pimp. In nutshell, all Akademi should award in the following categories:

1. Children
2. Women
3. Youth
4. Adults
5. Senior Citizens
6. Intra Indian Language Translation Prizes

there have been awards with research chairs instituted on their works after they died. Leo Tolstoy, Ezra Pound, Sarat Chandra and Chinua Achebe are some burning examples.

Being a poet, I always dream of a world where there will be no fight on religion, citizenship or resources. I long for a visa- passport free world where people can fly like birds. Is it possible ? This is the objective of Sanatan.. Don't put your sweetheart on the dais unless s/he is a celebrity. Let others do it. This is my principle. But a friend of mine put his wife on the dais today on the World Poetry Day programme!

Visiting Professor of Development Communication
Former Director, I & PR and Culture, North Eastern Council
Ministry of DoNER, Govt. of India
Former Director, Book Publishing Courses & Editor, NCCL National Book Trust, Ministry of HRD, Govt. of India

as a literary recognition. Sahitya Akademi used to award authors in the recognised Indian Languages. Then, award for translation was added. During the time of Sunil Gangopadhyay, Sahitya Akademi began giving separate awards for Children's authors and there are many small and big awards for recognising their talents. Nobody should get a Sahitya Akademi award twice. Now since Women's Writing has been considered as a distinct genre, Sahitya Akademi should institute an award in that field too in all

Innovation Breakthrough by School Children by Designing Organic Diaper and Absorbent Pouch

Saikat Kumar Basu

Picture: (a) Diaper prototypes , (b) Inside out of 3rd prototype, (c) Third prototype and its absorbent pad separated and (d) together, (e) testing of absorbent pad.

be mixed with silica gel, which are highly carcinogenic. These carcinogenic chemicals can find their way to human body or other organisms by water or food.

To overcome the problem in future, two young innovative students; Aziza Khatun and Afsana Khatun of the Margram High School (H.S), Rampurhat II, Birbhum, West Bengal, have come up with a natural, cheaper biodegradable alternative made from puffed rice.

We can make and use puffed rice powder in our home for anytime use by following some general norms. We can use it every where to absorb moisture, from food to medicine except inside electronic gazettes. To protect it from insect attack we mix a few leaf powders which also give it a good smell. Our basic experiment suggests that, puffed rice powder absorbs moisture comparatively quicker than silica gel. We do not need to add any indicator because after absorbing

a significant amount of water change in texture can be detected with bare hands even within our own made absorbent packets with cotton cloth.

The students have successfully established the fact that puffed rice powder has the ability to partially replace the use of silica gel as absorbent under specific circumstances. They have successfully designed recyclable diapers pants with the help of this material which are working good.

They have found that normal diaper pant material gate raised after shaking water; but, in contrast puffed rice powder get reduced in volume after shook with water it will reduce the discomfort of babies. The diaper pants designed by them are totally organic and biodegradable as it is made from cotton clothes and puffed rice powder.

Its large scale production and daily use in replacement of the traditional synthetic diaper pants could potentially solve a long lasted

environmental pollution issue. Their home made diaper pants could be used multiple times by simply washing and replacing the absorbent pad if necessary. There by it is cost efficient too. They have been working tirelessly for improving their prototypes day by day.

Letter to Editor

Sir

Its really astounding and delightful to know that the medals made for the upcoming Paris Summer Olympics is simply remarkable and fantastic. In addition to the customary gold, silver and bronze, each winner's medal will feature a small piece of iron straight from the Eiffel Tower! Small chunks of the iconic tower — the symbol of Paris and France and one of the wonders of the world — have been included in the medals to mark the 100 years since last hosted the Olympic Games.

Each and every medal has at its center a hexagon of iron from the tower. They all come from pieces removed from the structure during different renovations over the last so many decades. The pieces of metal were carefully preserved, and the organisation in charge of the Eiffel Tower's preservation donated them to the Paris Olympic committee to create the unique medal designs.

Definitely it would be joy unlimited as medalists will get an unforgettable souvenir of Paris made from this unique metal. The "puddle iron" which has been used to make the tower is a special pure material, which is extremely strong. These special Olympic and Paralympic medals were designed by craftworkers at the famous Chaumet House of Jewellery and it is for the first time in the history of the Games that a jeweller has designed the medals.

An out of the box idea by the organisers these medals are definitely symbol of excellence, a source of motivation, symbol of ultimate achievement and historically precious.

PRESIDENT OF INDIA GRACES THE 20TH CONVOCATION OF SARDAR VALLABHBHAI NATIONAL INSTITUTE OF TECHNOLOGY, SURAT

New Delhi, (KCN): The President of India, Smt Droupadi Murmu graced and addressed the 20th convocation of Sardar Vallabhbhai National Institute of Technology, Surat today (February 12, 2024).

Speaking on the occasion, the President said that today everyone talks about Artificial Intelligence. The Government of India and state governments are implementing many programs to utilize the benefits of AI for the development of the country. Big tech companies are also starting new projects to

utilize India's AI potentials. She stated that technology institutes like SVNIT should work closely with the corporate sector, NGOs and research institutes towards reducing the 'AI skill gap' of the country. She added that youth will play an important role in taking India forward in the global race of latest and rapidly changing technologies like AI and machine learning. The President said that students should use science as a guide for their technical skills, problem solving skills and innovative thinking for nation building.

They should not only have to find engineering solutions in line with international standards but also set new standards of innovation, efficiency and inclusion. They not only have to think about their job and career, but also use their knowledge, alumni networks and technical skills to create new businesses and employment opportunities.

The President advised students to make some ideals for their future life and profession. She said that by doing this, they will never have any difficulty in choosing

the right path. She told them to always remain connected to their roots. This connect will help them move ahead and will also prove useful in making life meaningful, she added.

The President was happy to witness the rising number of girl students in engineering colleges and institutes. She appreciated girls for making their career in the science and technology. She urged all NITs to organize programs, campaigns or workshops to encourage more and more girls to study in engineering and technology institutes.

"Felt Indescribable Calm": Arvind Kejriwal On Ram Temple Visit In Ayodhya

Ayodhya (KCN): Following his visit to the historic Ram Temple in Uttar Pradesh's Ayodhya, Delhi Chief Minister Arvind Kejriwal said that he felt an 'indescribable' calm after offering prayers to the Lord.

The 'Pran Pratishta' of Shri Ram Lalla at Ayodhya's temple was held on January 22, with Prime Minister Narendra Modi performing the Vedic rituals, led by a group of priests.

Meanwhile, earlier in the day, Delhi Chief Minister Kejriwal, along with his Punjab counterpart, Bhagwant Mann, paid a visit to the grand temple. The families of the two leaders also accompanied them.

"I felt an indescribable calm after offering prayers to Ram Lalla... Lakhs of devotees visit here every day, and it is indeed heartwarming to see the love and devotion people carry. I prayed for

the welfare of all," Chief Minister Kejriwal told reporters.

Punjab Chief Minister Bhagwant Mann said that it was his long-pending desire to have a 'Darshan' of Ram Lalla. "It was a long-pending desire to visit Ram Lalla... I prayed for the welfare of the country," he told reporters.

Earlier in January, Arvind Kejriwal had turned down the Ayodhya invitation, stating that he would visit

the temple with his family post-Pran Pratishta. "I want to visit Ayodhya with my family. My parents are very keen to visit the Ram Temple, so we'll go someday after January 22," he had said. The ceremonial journey leading up to the Pran Pratishta included a seven-day ritual that commenced on January 16, 2024.

The ceremony was attended by representatives of all

major spiritual and religious sects in the country. People from all walks of life, including representatives of various tribal communities, will also attend the ceremony. The Shri Ram Janmabhoomi Mandir is constructed in traditional Nagara style. Its length (east-west) is 380 feet; width is 250 feet and height is 161 feet; and is supported by a total of 392 pillars and 44 doors.

The pillars and walls of the temple showcase intricately sculpted depictions of Hindu deities, Gods, and Goddesses. In the main sanctum sanctorum on the ground floor, the childhood form of Bhagwan Shri Ram (the idol of Shri Ramlalla) has been placed. Meanwhile, the Indian Railways is running more than 200 Aastha special trains from various cities and tier 1 and tier 2 towns across India to Ayodhya for the darshan of Ram Lalla in the newly-built Ram Mandir in Ayodhya. As per the Railways, each Aastha train comprises 20 sleeper coaches. One train can accommodate around 1,400 people. According to the Shri Ram Janmabhoomi Teertha Kshetra Trust, over 20 lakh devotees visited the Ram Temple within seven days after the Pran Pratishta ceremony.

New Delhi, (KCN): Ashok Chavan quitting the Congress is like a son abandoning his own mother, Shiv Sena (UBT) leader Sanjay Raut said on Monday. Earlier in the day, Ashok Chavan, a former chief minister of Maharashtra, announced he had quit the Congress. "If the son of Shankarrao Chavan, a stalwart who served as Maharashtra Chief Minister between 1975 and 1977, quits the Congress, then it is like a son abandoning his mother," Sanjay Raut told reporters in Mumbai.

Meanwhile, the Indian Railways is running more than 200 Aastha special trains from various cities and tier 1 and tier 2 towns across India to Ayodhya for the darshan of Ram Lalla in the newly-built Ram Mandir in Ayodhya. As per the Railways, each Aastha train comprises 20 sleeper coaches. One train can accommodate around 1,400 people.

According to the Shri Ram Janmabhoomi Teertha Kshetra Trust, over 20 lakh devotees visited the Ram Temple within seven days after the Pran Pratishta ceremony.

Sanjay Raut, however, said he believed Ashok Chavan was still with the BJP. Sanjay Raut said the ruling party left no stone unturned to indict the Nanded strongman in the Adarsh housing scam. "We have faith in Ashok Raut. Till yesterday, he was with us. During the seat sharing meeting, his opinions about certain seats in Marathwada were very firm, which shows he is still with us. I feel hopeful," Sanjay Raut added.

Amid speculation that the former Chief Minister may join the BJP, Sanjay Raut said the ruling party left no stone unturned to indict the Nanded strongman in the Adarsh housing scam.

"We have faith in Ashok Raut. Till yesterday, he was with us. During the seat sharing meeting, his opinions about certain seats in Marathwada were very firm, which shows he is still with us. I feel hopeful," Sanjay Raut added.

However, the Shiv Sena (UBT) Rajya Sabha MP added that if somebody was determined to take a certain step then who could stop such a person. Asked about desertions from the grand old party, Sanjay Raut said the Congress was like an old but immortal woman.

gone anywhere then there is no need for brouhaha over it. His family's entire life has been for the Congress. Whatever he is right now is due to the Congress," Sanjay Raut added.

According to the Shri Ram Janmabhoomi Teertha Kshetra Trust, over 20 lakh devotees visited the Ram Temple within seven days after the Pran Pratishta ceremony.

New Delhi, (KCN): The body of a former mayor of Chennai Saidai Duraisamy, who went missing after the vehicle he was travelling in plunged 200 metres down into the Satluj river, around 3 km from the accident spot.

Divers of Mahun Nag Association, Sundernagar (Mandi) recovered the body around 2 pm on Monday, Kinnar Deputy Commissioner Amit Kumar Sharma said.

The accident took place on February 4 near Kashang Nallah, they said.

The body would be handed over to the family members after

conducting a post mortem at Indira Gandhi medical College Hospital (IGMCH), Shimla, police said in a statement issued here.

Two days after the accident, Vetri's father Saidai Duraisamy had announced a reward of ₹ 1 crore to anyone who finds his son. He had also made an appeal to the local people to help in finding his son.

The vehicle was on its way to Shimla from Kaza when the accident took place.

One of the three tourists, Gopinath from Tamil Nadu, suffered serious injuries and was earlier referred to IGMCH Shimla while the body of the driver, identified as Tanjin, a resident of Lahaul and Spiti, was recovered on February 5.

A joint search operation had been conducted since February 4 by the Kinnar police, ITBP, NDRF, SDRF and Home Guards and divers of Mahun Nag Association on the banks of the Sutlej. Drone was also used to trace out the missing person.

Himanta Sarma's Swipe At Opposition Over Asking "Ram Bhakt" Question On NRC

Guwahati (KCN): An Opposition MLA today questioned Assam Chief Minister Himanta Biswa Sarma in the state assembly over the National Register of Citizens (NRC) process, which has been paused since 2019, leaving many "Ram bhakts" without the means to apply for job or ration cards. Congress

MLA Kamalakhya Dey Purkayastha brought up the issue of "Ram bhakts" unable to apply for Aadhaar since their biometrics are blocked till the NRC exercise is complete.

"The NRC final draft was

published on August 31, 2019 but many people were left out. Due to

biometrics blocked for

the pending NRC, they cannot apply for job and ration cards. The Ram bhakts have no Aadhaar cards and are facing problems. I request the Chief Minister, when would the Ram bhakts get Aadhaar?" Mr Purkayastha said in the assembly.

Mr Sarma, taking the question head-on, took a

swipe at the Opposition in his reply, "The government has been doing certain things for Ram bhakts, but when we work to solve problems, some people sitting in front of us may create problems."

"The Supreme Court asked us to collect 27 lakh biometrics, and we have collected them. The

whole data will be preserved, and people will get Aadhaar... We know the NRC was done, but the final process has not completed yet," Mr Sarma said. The Assam government in its budget has made a special allocation to take 25,000 devotees from the state to the new Ram temple in Ayodhya.

The body of Vetri

for many of us who have been born and brought up in Bengaluru. With the kind of stressful lives we lead, Cubbon Park is where people of the city come with their friends, children, relatives to spend some quality time," one of the activists told NDTV.

"It's not just about constructing a 10-storey building but also building a parking space for it, and the traffic that it will lead into the area. They are basically trying to kill this

entire space. Bengaluru is a big city, why not move your project elsewhere?" she added. The Cubbon Park Walkers' Association also expressed opposition to a recent government order issued by the Horticulture Department on February 8. The order permits the movement of vehicles inside Cubbon Park on the second and fourth Saturdays for a period of three months, further fueling concerns about the park's ecological

integrity.

"When you compare Bengaluru with other metro cities, even with the kind of traffic that we have, our Air Quality Index (AQI) is better thanks to mini forests like Cubbon Park," said another activist. "Cubbon Park is considered to be the 'lungs of the city', so destroying it makes no sense."

Amidst the growing

opposition, prominent voices, including Kiran Mazumdar-Shaw, the Executive Chairperson of Biocon Ltd, have spoken out against the proposal. In a post on X, she expressed concern about the impact on Bengaluru's identity as the 'Garden City,' urging the authorities to refrain from such "harebrained proposals." "Why are we destroying our Garden City with such harebrained proposals? Cubbon Park must be untouched. No construction should be permitted," she posted on X.

Proposed 10-Storey Building In "Lungs Of Bengaluru" Sparks Protests

Bengaluru (KCN): Hundreds gathered today at Bengaluru's iconic Cubbon Park to oppose the Karnataka government's plan to construct a 10-storey building as an annex to the High Court within the High Court within the cherishing green expanse of the public park.

The Karnataka government recently revived an earlier proposal to build an annex to the High Court in Cubbon Park,

triggering widespread criticism. Activists and environmentalists have expressed strong opposition, highlighting concerns about the potential encroachment on park space and the subsequent increase in pedestrian and vehicular traffic.

Cubbon Park, a sprawling 300-acre green haven, is a vital refuge for Bengalureans seeking respite from the bustling urban life. Home to the State Library housed in

the historic Sheshadri Iyer Memorial Hall, the park boasts a rich tapestry of fountains, statues, flowering trees, and lush greenery, and is often referred to as the 'lungs of Bengaluru'. The proposal, which had been on hold for the past five years due to sustained opposition from activists and environmentalists, now faces renewed public scrutiny. "Cubbon Park is not just a park, but an emotion

Odisha Economy On Growth Mode

Bhubaneswar(KCN): Despite natural calamities and political instability around the globe, the State Economy remains in its path of growth and scaling up high. Vishal Dev, Principal Secretary Finance is regularly monitoring GSDP Growth and the GSDP of the State at current prices in 2023-24 (Annual Estimate) is estimated at Rs 8,32,790 crore with a growth of 10.57 per cent over 2022-23 (Revised Estimate). The annual average growth of nominal GSDP over the last ten years stands at 11.34 percent. The GSDP is expected to

grow at 11% in nominal terms during 2024-25. The real GSDP or GSDP at constant (2011-12) prices stands at Rs 5,03,870 crore for the year 2023-24(AE) as per the advance estimates with a growth of 8.46 percent over the year 2022-23. The annual average growth of GSDP in real terms over last ten years stands at 7 percent, it said. At the macroeconomic level, over the last 10 years, Odisha has registered an annual average growth of about 7 percent of Gross State domestic product (GSDP) except during 2020-21. The GSDP

contracted by 2.11% during 2020-21, according to State Budget documents. As per the advance estimate for the year 2023-24, GSDP is projected to grow at 8.46%, which is higher than the average growth rate in the last 10 years, said a senior official in Department of Finance. As per the reports, higher commodity price, interest rate and political instability around the globe have resulted in higher inflation and volatility in economic growth. However, the State Government's focus on capital investment and private

sector investment in industries, MSME sector, social and economic sector is likely to help the domestic economy to grow at about 8 percent in real terms and about 11 percent in nominal terms during 2024-25. Similarly, there has been impressive growth in State's own revenue from 1999-2000 onwards. State Own revenue has reached an all-time high of 14.88% of GSDP during FY 2021-22 mostly due to higher collection from the mining sector.

During the year 2023-24(Re), the Own Revenue has been estimated to be 12.8% of GSDP and it is projected to remain above 6 percent during 2024-25. Thus, the total own revenue as percentage of GSDP has increased from 5.1 percent in 1999-2000 to 14.8 percent in 2021-22 and is estimated at 12.4 percent in 2024-25.

At the same time, the State also followed a proper policy to make expenditures. The State Government has identified health, education, agriculture, tourism, drinking water, connectivity, urban sanitation, MSME and provision of social security as the focused area of expenditure. The non-tax/GSDP ratio has increased from 3.6% in FY 1999-2000 to 6.5% in FY 2023-24. Similarly, non-tax revenue as a percentage of GSDP has increased from 1.5 percent in 1999-2000 to 8.2 percent in FY 2021-22 due to higher collection of mining revenue. The non-tax/GSDP ratio is estimated at 6.3 percent in 2023-24 (RE) and it is projected to remain above 6 percent during 2024-25.

payment and pension payment in the coming financial years and enhance the program expenditure particularly Capital Expenditure (CAPEX). The capital outlay in the financial year 2024-25 is estimated at 6.8% of the GSDP. Odisha's expenditure has risen substantially, registering double-digit growth almost every year since 2011-12. Reduction of debt servicing liabilities through borrowing from low-cost sources like CAMPA, OMBADC and NABARD which are charging less rate of interest is the strategy for FY 2024-25. The broad objective of the expenditure policy is to improve the quality of public expenditure in order to ensure better output and outcome, the Finance Department said in a report. Moreover, the debt stock of the Government is also under control and in compliance with the FRBM Act. The State had one of the highest debts to GSDP ratios among all States of India at 50.7% as on 31 March, 2003 compared to all States' average of 34.2% as worked out by the 12th Finance Commission. It is estimated that the debt-GSDP ratio in FY 2023-24 will be 12.4%.

Sagarpali VSS shines in national webinar

Sundargarh(KCN): The remarkable success story of Sagarpali Van Surakhya Samiti (VSS) under Tangarpali block in Sundargarh district took centre stage in the second edition of the national-level webinar 'Community Conference on Commons' organised by the Foundation for Ecological Security (FES).

The selected success story, titled 'Transformation of Bald Hill into a Lush Green Forest', authored by SEWAK team leader Digambar Upadhyay, was presented in the prestigious forum during the first session on the initial day of the three-day webinar.

Out of numerous success stories submitted by various government and private organisations as well as individuals from India, Bangladesh, and Nepal, Sagarpali VSS's story was among the top 80 selected for presentation.

The national-level webinar aimed to showcase and celebrate

impactful initiatives from across the region. In the inaugural session of the first day, Digambar Upadhyay delivered a compelling presentation on the success story of Sagarpali Van Surakhya Samiti under the Sundargarh forest division.

The narrative covered the innovative initiatives for forest protection and management initiated by the villagers of Sagarpali since 1985, highlighting the collaboration with the Odisha Forest Development Project-II and the continuous support and guidance from the voluntary organisation 'SEWAK'. Key aspects of the presentation included the 'Thengapali', 'Mutidhan' system, SHRAMADAN plantation, protection of paddy fields and forests from fire, and strategies to reduce community dependence on forests through income-generating programmes. The presentation also emphasised on biodiversity conservation, alternative fuels, and

wildlife conservation. The success story was highly appreciated by the audience, serving as a shining example of joint forest management, demonstrating effective collaboration with the Sundargarh forest division and the collective efforts of community forest management, supported by the Odisha Forest Development Project-II.

Representatives from Sagarpali VSS including Debanand Mahaling and Bharti Patel shared their experiences during the programme, highlighting the importance of community motivation, participation, and action in achieving sustainable conservation goals. The virtual event witnessed active participation from members of Sagarpali VSS, Ujalpur Range Officer Debadatta Nanda, Forester Vinod Kumar Pattanaik, SEWAK Secretary Pradeep Kumar Brahma, SEWAK Chairman Amiya Kant Naik, Finance Manager Nilambar Upadhyay, Development Officers Haripriya Naik, and Manoranjan Mallick, among other staff members.

The success story of Sagarpali VSS stands as a testament to the power of community-led conservation efforts, showcasing the positive impact of collaborative initiatives in preserving and enhancing natural resources.

The recognition received at the national level further underscores the significance of such grassroots initiatives in fostering sustainable environmental practices.

The author of the case study, Digambar Upadhyay, expresses gratitude to RCCF Arun Kumar Mishra, Sundargarh DFO Pradeep Mirase, ACF Mohan Hemram, Sundargarh DMU, Ujalpur FMU, SEWAK management, and all the villagers of Sagarpali for their unwavering support and guidance.

Odisha hostel students walk 25km to submit grievances before Rayagada Collector

and coerced the students to return to the hostel. However, the students refused to leave the Collector's office until their issues were resolved, the source added.

Afterwards, Scheduled Tribes and Scheduled Caste Development Minister Jagannath Saraka met the students at the Circuit House in Rayagada and offered them food.

The Minister assured the students of taking appropriate action following a thorough investigation. Later, the students were pacified and were taken back to Badaraisingi Ashram School.

The source informed that, earlier, several complaints were raised against Headmaster

Vishwamitra Sona. A similar complaint was raised by hostellers of Anwesha Hostel located in Katlaguda on the outskirts of Rayagada town against Sona. The students had approached the Collector about his mismanagement. Subsequently, Vishwamitra Sona was removed by the Collector. However, following his transfer from Anwesha Hostel, a similar incident has come to light within two months.

When contacted, Headmaster Vishwamitra Sona claimed that the children were being provided food properly. He refuted the allegations brought by the children who had jumped off the hostel gate to reach the Collector's office.

Notably, around 240 students – from Class-I to Class-VIII – reside in Badaraisingi Ashram School's hostel.

TPSODL Joins hands with Odisha Millet Mission to Promote Sustainable Agriculture and Nutrition

Berhampur, (KCN): TPSODL, a dedicated advocate for women and communities in Southern Odisha, is championing Income Generation Activities (IGAs) through its livelihood enhancement program. Collaborating with Mission Shakti, Odisha Livelihood Mission, and NGO partner, TPSODL is identifying and supporting potential Women Self-Help Groups (WSHG) and farmers through various initiatives.

One of the noteworthy

endeavours of TPSODL is its commitment to the promotion of millet cultivation. To this end, the organization has mobilized approximately 500 WSHGs and farmers, providing them with essential resources.

TPSODL offers capacity-building programs, training sessions, and input support including seeds and on-ground guidance. The goal is not only to empower these individuals but also to promote the numerous nutritional and health benefits of millet. Millet, known for its resilience in challenging environmental conditions with minimal water and fertilizer requirements, also aids in mitigating the effects of climate change due to its low carbon footprint.

During the kharif season, more than 500 acres of land have been cultivated across 8 districts of TPSODL operational areas. In

total, 70 Gram panchayats were involved impacting a total of 500 farmers and WSHGs. Which includes 24 GPs of Ganjam, 8 GPs of Gajapati, 8 GPs of Koraput, 8 GPs of Nabarangpur, 8 GPs of Malkangiri, 9 GPs of Boudh, and 5 GPs of Kandhamal. Looking ahead to the upcoming Rabi season, coinciding with the International Year of Millets, TPSODL aims to extend its support to 1000 acres of land and farmers.

Inaugural of 9th Conference on Transportation Systems Engineering and Management

Warangal (KCN): The inaugural of 9th Conference on Transportation Systems Engineering and Management (CTSEM 2023) was held today morning in Chandrasekhar Hall of Seminar Halls Complex. The programme is organised by the Transportation Division, Department of Civil Engineering, National Institute of Technology, Warangal, Telangana. Prof. C.S.R.K. Prasad, Chairman of the conference inaugurated the conference. The objective of this

conference is to bring together postgraduate students and researcher scholars to present their ongoing research works. Experts in the field of Transportation Engineering from academic institutions,

industries, and research organizations were also invited to share their knowledge, expertise, and experience with the young participants and to provide an overview on the latest trends and potential research areas in Pavement Engineering, Traffic Engineering, and Transportation Planning. The keynote speeches will be delivered by the eminent personalities at national and international level. On day one, Prof. J. Murali Krishnan from IIT Madras and Prof. K. Sudhakar Reddy from IIT Kharagpur shared their experiences and the major research works that are being executed by them in Pavement Engineering.

The programme is sponsored by LEA Associates South Asia Pvt. Ltd., Coact

Solutions Pvt. Ltd., Avijeet Agencies Pvt. Ltd., and Parameshwari Projects. About 150 Postgraduate students and research scholars will be presenting their papers and receive valuable suggestions from the experts. The coordinators of this conference are Dr. K.V.R. Ravi Shankar, Dr. S. Shankar, and Dr. Arpan Mehar and the co-coordinators are Dr. B. Raghuram Kadali, and Dr. Vishnu R. The Chairman of the conference is Prof. C.S.R.K. Prasad, and the Convenor is Prof. Venkaiah Chowdary.

Business icons confer with Utkal Tycoons Awards

Bhubaneswar: Noted business icons of Odisha conferred with Utkal Tycoons Award in an exotic platform organizes by Utkal Updates and Addiction Fashion Management today at WelcomHotel by ITC Hotels, Bhubaneswar. Similarly, every week winners of TV and Smart phones are being gratified instantly so that they don't have to wait for their prizes for long. Mr. Nipun Jain, CEO, RapiPay Fintech Ltd. said "We believe, it is important to bring excitement in the business with regular incentives for our DBOs, RapiPay's De Dhana Dhan Offer is a step towards that. An effective incentive scheme like this does not just improve customer experience and build your business, but also helps with DBOs retention. Moreover, as a category leader, we are committed to grow the Assisted Payments space and take the financial inclusion to the last mile. RapiPay is one of top players in AEPS and Micro ATM services. It has witnessed 200% growth in AEPS and Micro ATM transactions from April 2021 to March 2022."

Middle order, Beardman lead Australia to World Cup glory

New Delhi, (KCN):

Australia won their fourth U19 World Cup title with a convincing 79-run win over defending champions India in Benoni. It was the first time Australia beat India in the final, having lost on two occasions previously. That India were up against it was apparent when Australia racked up 253/7 after opting to bat, the highest total in an U19 World Cup final. The difficulty of the run-chase at hand came through in the maiden over bowled by Callum Vidler to kickstart the second innings. And as if playing to the build-up, Arshin Kulkarni nicked behind in Vidler's next over. Musheer Khan, who was dropped on nought by Harry Dixon, was soon bowled by one from Mahli Beardman that stayed low. Uday Saharan, the India captain who's pulled off

rescue acts for India in multiple games including the semifinal, then walked to the crease but couldn't do an encore this time around. In the 17th over, he cut a delivery from Mahli Beardman straight to backward point and took the long walk back to the pavilion. What followed was an anticipated collapse from India. Sachin Dhas was first stumped off Raf

Macmillan, Priyanshu Moliya then mistimed a pull to mid-on and Aravelly Avanish was caught-and-bowled by Macmillan as India slipped from 55/3 to 91/6. Adarsh Singh, India's opener and top-scorer at 47 from 77 balls, put on a brave front but couldn't get on top of a short ball from Beardman, his long vigil finishing with a tickle

through to the keeper. India went on to be bowled out for 174 inside 44 overs, with Beardman and Macmillan sharing six wickets between them. Earlier in the day, Australia braved past India's breakthroughs by way of crucial stands.

The previous highest was England's 242/3 against New Zealand in 1998, achieved while chasing. Brief Scores: Australia 253/7 (Harjas 55, Weibgen 48, Peake 46*; Limbani 3-38) beat India 174 in 43.5 overs (Adarsh 47; Beardman 3-15, Macmillan 3-43) by 79 runs

'Affected my family a little more than me': Maxwell reflects on alcohol-related incident

New Delhi: Maverick batter Glenn Maxwell has thanked the Australian cricket hierarchy for the 'outstanding support' he received after falling unconscious at an Adelaide Pub on January 19.

The 35-year-old had to be taken to the hospital by an ambulance following the alcohol-related incident, one he termed 'less than ideal'. "I think probably it affected my family a little bit more than it affected me," Maxwell said on Sunday (February 11) after a record-equaling fifth T20I hundred.

Maxwell had been managed out of the ODI squad to face the West Indies and had a week off when the said incident took place in the backdrop of a concert performed by Brett Lee's band 'Six And Out'.

"I knew I had that week off," Maxwell said. "And

obviously that incident was less than ideal, and the timing. But I had that week off, I knew I had that week off away from the game. "And I came back and got back into my running, my gym program and it felt really good and refreshed once I got back. And it's all been focused on getting myself ready for this [T20] series and what's to come." The incident was

the latest in a series of recent mishaps for the Australian all-rounder. After the T20 World Cup at home in 2022, he had a fall during a house party and broke his foot. At the recent World Cup in India, he fell off a golf cart and was partially concussed. Head coach Andrew McDonald, in a radio interview with SEN, implored the all-rounder to consider making wise choices off

the field so as to prolong his career. Maxwell said the incident prompted no reflection on his part but was thankful to the support he received. "I just moved on pretty quickly. I was back in training on Monday so I was pretty good. The coach, Bails, everyone really, they have been outstanding," he said after making 120 not out from 55 balls against West Indies.

Incidentally, Maxwell was expected to be rested for Sunday's game in Adelaide but talked the management out of their decision, a move that finished with him equaling Rohit Sharma's benchmark of scoring five T20I hundreds. He revealed that he experienced a premonition about getting a hundred and went on to actually do so, becoming the first player batting at No.4 or below to score

four hundreds in the format. "I woke up this morning and I just had a funny feeling," Maxwell said. "I don't get it very often, and especially batting middle-order you don't get it often. But I just got a good look at their [West Indies] attack last game in Hobart, and felt like I got a good read of what they were bowling. I was disappointed getting out there in the same sort of scenario - short square boundaries with the ground quite similar, and another good wicket. So I felt like I'd missed out again, and I said 'you know what, I can't let this opportunity slip'."

"I said when I arrived [at Adelaide Oval] I feel like someone's getting a hundred tonight', and when I woke up this morning I felt like I was getting one. But you've still got to get the time and opportunity, and the time was probably perfect."

Raj Limbani: From learning inswing bowling eight months before U-19 World Cup to troubling batsmen with his new weapon

New Delhi: Raj Limbani's in-swing bowling caught everyone's attention at the U-19 World Cup. In the final, the right-arm quick was India's best bowler, picking up three for 38, though it wasn't enough to get the desired result.

Limbani cleaned up Sam Konstas through the gate, before pinning Ryan Hicks and Charlie Anderson with nipp-backers. Most of his 11 wickets in the tournament came courtesy deliveries that came into the batsmen. However, Limbani's long-time coach Digvijay

Singh Rathwa says he never had a natural in-swing bowler and had to work to master it last year.

"His strength has always been the outswinger. Irfan (Pathan) was really impressed with his pace but he wanted him to work on his inswing as well to be more unpredictable," Rathwa tells The Indian Express. Rathwa knew at 18, it was going to be very difficult for someone to learn a new art. But he recalled a quote from former India bowling coach Bharat Arun, while doing his level 1 course at the National Cricket Academy (NCA).

"Bharat Arun sir used to say that one had to be very patient with fast bowlers."

Limbani was in two minds and a bit worried about whether he would be the same bowler or not if he worked on the in-swing. But in Rathwa, he had a mentor who had endured many swings of misfortunes in his career. The 28-year-old, a batch-mate of Hardik Pandya and Deepak Hooda, was on ventilator for a year. "I used to open for Baroda in U-16 and U-19 cricket. In 2015, I had GBS (Guillain-Barre Syndrome), a very rare

disease in India. I was just 19 and on a ventilator at Mahavir Hospital in Surat for a year. I told Raj 'look at me, I fought death and came back, and here you are worrying about your bowling. At least give it

a try,'" says Rathwa. With Rathwa's assurance, Limbani was ready to take up the challenge and for the next eight months, worked on his inswing. "We started it in May. For the first 40

LSG name Shamar Joseph as replacement for Mark Wood

Gabba Test which helped West Indies level the series. Joseph has featured in only two T20 matches in his career. He was part of the Guyana Amazon Warriors setup in the 2023 edition of the Caribbean Premier League.

The reason for Wood's unavailability isn't clear yet. The England pacer was part of LSG in 2022 but couldn't feature in the competition due to an elbow injury. He played four matches in the 2023 edition, bagging 11 wickets (including a fifer) before pulling out due to personal reasons.

Memes Pour In After India Lose Third Straight ICC Final To Australia After Loss In U19 World Cup Final

Aap apni winning streak rakh lijiy Aur mai World Cup rakh leta hu

New Delhi: India U19

lost the World Cup final to Australia U19 final on Sunday in Benoni, South Africa. This is India's third straight loss to the Aussies in ICC finals. It all started last year after Rohit Sharma-led India lost to Pat Cummins' Australia in the World Test Championship final in June. A few months later, India lost another final to Australia, in the ICC Cricket World Cup 2023 at Ahmedabad. This is one of the worst losses in recent history as India had come to the summit clash on back on 10 consecutive wins.

Uday Saharan, the Indian Captain, expressed his pride in the team's performance, highlighting their commendable display of fighting spirit throughout the tournament. He acknowledged that despite their preparedness, they faltered today due to some rash shots and lack of time spent in the middle. Saharan emphasized the valuable lessons gained

from the tournament, both from the support staff and the games themselves. He affirmed the team's commitment to continuous learning and improvement moving forward.

Hugh Weibgen, the Australian Captain, said he has immense pride in his team and coaching staff. He commended their willingness to bat first and their strategy to accumulate runs while backing themselves. Weibgen praised Harjas Singh as a quality player, attributing his success to the unwavering support of the coaching staff. Despite Australia's victory, he acknowledged India's dominance throughout the tournament and expressed confidence in their future successes.

Weibgen also lauded the pacers for their unity and understanding of their roles, predicting bright futures for each of them in their careers.

Irfan bhai said he has got potential and a good head on his shoulders and with a little bit of guidance, he can become a good end product in a couple of years. Before going to the World Cup, Irfan bhai spent a week with him. He gave him tips on how to ball in South African conditions, and the importance of hitting a good length there. I think he has ticked most of the boxes, including the six that he hit in the semi-final at a very crucial time," says Rathwa. "He clocks 135 kmph consistently and at the National Cricket Academy, he has clocked

141 twice. Pace is something that we will work along with his batting once he returns home," he says. Rathwa feels Limbani wants to play first-class cricket and right from his U-16 days, would talk about workload management.

"He loves bowling with the red ball. Even before going to the World Cup, he used to bowl with the red ball. During his U-16 days, he used to talk about workload management. He is aware of this aspect. He bowled around 200 overs in six matches in the Cooch Behar Trophy in the 2022-23 season.
