

## Odisha to face power crisis BJD on hartal mode

**Bhubaneswar (KCN):** With supply of coal slowing down worryingly for the power plants of NTPC, Odisha is

While entire generation of 460 MW from Talcher Thermal Power Station (TTPS) is dedi-

Even as the daily consumption of 460 MW capacity TTPS is 9500 Metric Ton, while during July it received on an aver-

coal to TSTPS as daily requirement of coal is 60,000 MT. Lingaraj and Kaniha coal mines are linked for supply

Looking at the worsening situation, State Government has brought to the notice of Ministry of Coal in this regard.

If coal supply is not augmented urgently the generation from both the power stations will come down to a great extent and it will seriously affect supply of power to the State.

Recently, during the visit of the Chairman Coal India Limited (CIL) it was brought to his notice and authorities have also intimated Union Secretary Coal in this regard.

While both power and coal are under the same Minister, the issue of supply of coal is expected to be sorted out by the Union Minister himself as both the Central PSUs are under him.

Now, Piyush Goyal is the Union Minister Power, Coal, Mines and New & Renewable Energy.

The Union Minister should realize the urgency and make efforts to resolve the crisis, feel senior officials of the State Government.

**Bhubaneswar(KCN):** Governing BJD today geared itself up for its second phase 'Hartal' from 1 October in seven districts of the State to protest construction of Polavaram

exempted educational institutions where examinations are being held, ambulances and passenger trains from the purview of the hartal, Mr. Deb told Media.

The Apex Court

his State after sanction of Rs 900 crore from National Bank for Agriculture and Rural Development (NABARD).

The party will stage demonstrations in front of the Collector's office in Kandhmal, Ganjam, Rayagada, Gajapati, Malkangiri, Koraput and Nabarangpur districts.

They said allowing the construction was grossly unjust and will hamper the interest of the State and the party can under no circumstances allow its construction. It has termed the approval to the project by Centre as 'anti-Odisha' move and demanded cancellation of the environmental clearances given to the project by violating norms.

Even though the matter is Sub Judge in Supreme Court, the project work is in progress by the Andhra Pradesh Government. Most of the regions in the southern part of the State especially 15 revenue villages and 10 hamlets under Motu Tehsil in Malkangiri district will be submerged due to the project, said Mr. Deb.

A Total 8,818 people including 5,916 tribals of 25 villages will be displaced and 7,656 hectare cultivating and forest land will be submerged, it claims.

Dam project by the Andhra Pradesh Government even as the Supreme Court served notices on the Union Government and Andhra Pradesh Government to reply within four weeks.

Pratap Kesari Deb, BJD Spokesperson announced here that the agitation will be peaceful during which movement of trucks and goods trains will be stopped for four hours.

However, it has

direction came during the hearing of a plea of the Odisha Government challenging a section of the Andhra Pradesh Reorganisation Act under which Polavaram Project was declared as a National Project.

The Party had three days ago expressed its resolve to go ahead with the program as the Andhra Pradesh Chief Minister N Chandrababu Naidu directed his officials to expedite the Indira Sagar Dam project in

## BJP to follow BJD protest path

**BHUBANESWAR(KCN):** Even as BJD will observe hartal in all seven southern districts over the Polavaram dam project on Saturday, the BJP on Friday announced that it will launch 'satyagraha' at all sub-divisional headquarters of Odisha against the all-round failure of the State Government on October 2.

The BJD Government has brought 'shame' for Odisha, State general secretary of BJP Pruthviraj Harichandan said while announcing the party's State-wide agitation programme. The BJD is launching agitation on different issues only to cover up the failures of the State Government, Harichandan said and

added that the ruling party has failed to fulfil promises made during 2014 election.

Referring to the BJD's claim that 10 lakh pucca houses have been constructed during the last three years, Harichandan said only three lakh have been constructed out of which 2.5 lakh houses are under different Central schemes.

Harichandan said Chief Minister Naveen Patnaik claims to have created irrigation facilities for three lakh hectare (ha) land during the last two years, but he has admitted in the Assembly that irrigation has been provided to only 50,000 ha since 2000.

Pointing towards See page -7

likely to plunge into darkness unless situation improves.

Flustered with the enormity of the crisis, the State Government has urged the Union Ministry of Coal (MoC) to intervene in the matter without further delay, said sources in Department of Energy (DoE).

Odisha is drawing 1020 MW power daily from the two plants of NTPC in Talcher and both the power producing units are experiencing acute short sup-

planned for the State, Odisha is drawing its share of 560 MW from 3000 MW capacity Talcher Super thermal Power Station (TSTPS).

In the process, Odisha is drawing 1020 MW daily to meet its fast growing requirement of 4000 MW at peak hours.

Both the power plants are run by NTPC and authorities are worried over short supply of coal from the coalfields of Mahanadi Coalfields Limited (MCL).

age 7812 MT, in August the volume came down to 5900 MT.

As a result the stock has been consumed and situation is now quite alarming, said sources familiar with the development.

Chief Secretary AP Padhi has taken up the matter with MCL and has pressed for improving coal supply, so as to ensure daily dispatch of 12,000 MT of coal to TTPS.

Mr. Padhi also took up the supply of

of coal to TSTPS.

Daily supply of coal at the moment is only around 46,000 MT, as a result stock is fast depleting and situation is turning extremely distressing.

Mr. Padhi has asked MCL authorities to supply 65,000 MT daily to TSTPS to tide over the critical situation due to short supply.

However, situation has not been improving and both the major power plants of the State are facing acute shortage of

## Panigrahi; new NABARD chief

**Bhubaneswar (KCN):** K C Panigrahi has taken over as head of

He has vast experience in various fields of NABARD's func-

porate Office in Mumbai.

He is considered to be a very capable and efficient Officer.

A Post Graduate in Commerce from Utkal University, Dr. Panigrahi has completed CAIB from the Indian Institute of Bankers.

And he has also done Ph.D. in Cooperative Banking from Utkal University.

He was born in Village Khandash in Jajpur District of Odisha.

It is expected that with the taking over as Chief of NABARD in the State by Dr. Panigrahi, the implementation of various development programs of NABARD in Odisha will be further strengthened. Apart from providing financial assistance of over Rs. 10,000 Crore to the State during the fiscal, NABARD is taking up various agricultural and rural infrastructure projects in the State.

NABARD in Odisha with effect from 1 October.

Dr. Panigrahi will be the Chief General Manager of NABARD's Odisha Regional Office.

tioning.

Before joining Odisha Regional Office he has worked in different positions in different States like Gujarat, Assam, Jharkhand and also in the Bank's Cor-

# Tiger Shroff and Shraddha Kapoor fail to make an impression

Houston: Actor Anupam Kher has reached yet another milestone in his illustrious acting career by signing up another Hollywood film "The Big Sick", which happens to be his 500th film. The 61-year-old actor, who started his career 32 years back with award winning movie "Saaransh", will be sharing screen space with Hollywood actors Holly Hunter, Zoe Kazan, Ray Romano, Kumail Nanjiani and Adeel Akhtar among

others. Judd Apatow is producing the film based off Nanjiani and Romano and Hunter Gordon's own relationship as a Pakistani-born man and an American woman. Kher is playing the role of Kumail Nanjiani's father. He will be essaying Kazan's character's parents. Nanjiani is a Pakistani-American

stand-up comedian, actor and podcast host married to Emily V Gordon, an author, comedy producer, and former couples and family therapist. He is the booker and pro-

ducer of "The Melt-down with Jonah and Kumail", a comedy show that began airing on Comedy Central in July 2014. Barry Mendel is also producing the project, which is being financed by FilmNation. Kher, who is in New York these days, told PTI over phone about his 500th movie. "Doing 500 films in 32 years has been an awesome journey. It shows the kind of life I have had. I'm happy that my 500th landmark film is a Hollywood project. It's not that if it was a Hindi

film, it would have not been important. But I have done a lot of work in Hindi cinema, and now I am looking at newer avenues. It happened by chance that this film worked out around this time." Kher shared a YouTube message by veteran Hollywood actor Robert De Niro, congratulating him on his 500th film. "Congratulations for finishing your 500th film, it is an amazing thing to do. In America I have done 95 movies, but doing 500 is incredible", said De Niro.

## Sonakshi Sinha's Akira Poster is Out

and It Looks Interesting

NEW DELHI: The poster of actress Sonakshi Sinha's upcoming action film Akira is out. The poster doesn't have a lot of Sonakshi but it does have a catchy tag line - No one will be forgiven. Add to that Sonakshi's blazing glare and it's sure to give you goosebumps. Akira is an action film directed by A R Murugadoss. "I felt that I could pull off or carry it off and also look convincing while doing this action," Sonakshi, who will perform high octane martial arts stunts in the film, told news agency in an interview. Akira, releasing on September 2, is also Murugadoss and Sonakshi's second collaboration after Holiday: A Soldier is Never Off Duty, co-starring Akshay Kumar. After Akira, Sonakshi Sinha, 29, will be seen in Vipul Amrutal Shah's Force 2 also starring John Abraham and Tahir Raj Bhasin. Action genre aside, Sonakshi has also signed up for Sunhil Sippy's Noor, based on Saba Imtiaz's 2014 crime novel Karachi, You're Killing Me!.

## It was conscious decision to not stick to any image: Jimmy

MUMBAI: Actor Jimmy Sheirgill has featured in a mixed bag of romantic dramas as well as intense dramas. He says he made a conscious decision to have a variety of roles so that he avoids being bracketed in an image. Jimmy told: "When I started off with 'Mohabbatein', after a few films I realised that somehow I was getting stuck with the chocolate boy image. So I felt I needed to start at now choosing some interesting roles with some intensity." "I don't want to get slotted into any one image. That's the reason I started doing films like

'Haasil', 'Munna Bhai M.B.B.S.', 'Yahaan' and 'Tanu Weds Manu'. It was a conscious decision on my part. Today also, I am doing a lot of

films, but the films I choose are with different stories," he added. The actor is busy promoting his film "Shorgul". Talking about the film, he said:

"Shorgul is a love story set in the backdrop of politics. There is the big question whether politics and religion is above humanity. My character in the film is about a young politician and I have not done something like this before. It's a character with grey shades." Co-directed by Jitendra Tiwari and P. Singh and co-produced by Swatantra Vijay Singh and Vyas Verma, the film stars Jimmy Sheirgill, Ashutosh Rana, Sanjay Suri, Narendra Jha, Hiten Tejwani, Eijaz Khan, Suha Gezen, Anirudh Dave and Deepraj Rana.

## Abrams to make TV drama about MJ's final months

LOS ANGELES: "Star Wars" filmmaker JJ Abrams is developing a new drama chronicling the final months of King of Pop Michael Jackson's life. Abrams and his partners at production company Bad Robot have

teamed up with author, activist and US broadcaster Tavis Smiley to adapt his upcoming biography "Before You Judge Me", reported. Abrams and Smiley will serve as executive producers for the event series, though no network has picked

up the drama yet. Smiley and the Bad Robot partners last worked together on the 2015 adaptation of Smiley's Martin Luther King, Jr book "Death of a King: The Real Story of Dr Martin Luther King, Jr's Final Year."

## International Social Worker Mark Furlong Ties the knot in AMOFOI with Basundhara Tripathy, his Indian Beloved

Bhubaneswar (KCN): 2014 with Ms Basundhara Tripathy

The World would be a much better place to live in if young men and women are given the social freedom to choose their respective life-partners out of love, not out of any other considerations of Caste, Creed or Nationality. Mr Mark Furlong (33), a master degree holder in "International Development and Humanitarian Work" who works as project co-ordinator of "Concern Worldwide", Dublin, Ireland was having deep love affairs since 14<sup>th</sup> Feb.

(27), MSc. in Social Anthropology, Asst. Prof. in University of Liberal Arts, Bangladesh, Dhaka. The lovers chose to have their unconventional dowryless International love Marriage in the Social Reform Organisation "AMOFOI" (Anti-caste Marriage & One-child Family Organisation of India). They, accordingly, reached AMOFOI, Bhubaneswar on 28<sup>th</sup> Sept., 2016 and they tied the knot and exchanged garlands with Madam Swapna

Bijayini chairing the whole function. This Godless Secular Priestless love marriage function was attended to, among others, by Bride's mother Mrs. Biyot Projna Tripathy and two of her close relations: Mrs Saroj Nalini Parida & Mr Bigyan Bhusan Nanda. All of them have signed the AMOFOI, Bhubaneswar Love Marriage Register as key witnesses.

Mr B. Ramchandra CST Voltaire, Founder-Secretary of AMOFOI, administered

the oath of marriage to the couple who have taken the pledge to go in for One-child Family for the betterment of the World so as to save it from Global Warming. While thanking the couple Basundhara Tripathy and Mrak Furlong, Mr Voltaire expressed the hope that with more such International Marriages mankind would move towards World Government that would surely ensure Global Peace and Human Dignity and Prosperity to each and every Human being.

# Government readies contingency plan for coal supply

**NEW DELHI (KCN):** In a move to overcome the hurdles caused due to excessive rains, the government on Friday said that contingency plans has been drawn up to ease dispatch of coal supply to NTPC's thermal power plants, including Rihand and Vindhayachal.

The government has also drawn up contingency plan for coal based power plants at Anpara and Singrauli in the Northern Coalfields Ltd (NCL) area during the last few days, an official statement said.

"This unforeseen natural calamity has damaged roads, railway tracks and there is waterlogging in the open cast NCL mines. This has af-

ected coal supply to Anpara, Singrauli,

states can get the supply from alter-

a contingency plan to overcome the

Open Bottom Rapid discharge (BOBR)

2 Box 'N' railway rakes per day each from BCCL, CCL and ECL subsidiaries of CIL are also being sent to Rihand and Vindhayachal units of NTPC as the coal for these units is diverted to the Anpara and Singrauli TPS," it added.

Rihand and Vindhayachal thermal power stations," it said.

Contingency plan has already been implemented to ensure that the power supply is not affected. If required,

nate sources and power exchanges, it added.

The Sub Group Monitoring Committee, reviewed the coal supply situation which was affected due to excessive rains and has issued

hurdles in coal supply to the thermal power plants receiving coal from Northern Coalfields Ltd (NCL).

"It has directed to the concerned agencies to put 6 numbers of Bogie

rakes in circuit for coal supply to Anpara and Singrauli thermal power station (TPS) till the merry-go-round (MGR) supplies to these plants are resumed," it said.

"In addition to it,

The imported coal stock lying at the port is also being moved to the Vindhayachal NTPC units. These pithead plants are designed to receive coal through MGR and therefore were facing difficulty in unloading coal through railway rakes. The coal supply is expected to improve in the next few days with the weather conditions improving.

## Gold buying picks up ahead of India's festive season, China holiday

**BENGALURU/ MUMBAI (KCN):** A drop in gold prices prompted consumers to buy the precious metal, ahead of festivals in India, the wedding season

"Jewellers are expecting higher demand in rural areas due to good monsoon. They are stocking up for the festive season," said a Mumbai-based dealer

and China's long National Day holidays, boosting demand in Asia.

Gold prices have lost nearly 1 percent this week after the Democratic U.S. presidential candidate Hillary Clinton got the better of Republican rival Donald Trump in their first debate, denting the safe-haven appeal of bullion and bonds.

In India, discount over the official domestic prices narrowed to \$10 an ounce, from \$12 last week, in anticipation of consumer buying during the festival season.

"Retail demand has been improving due to festivals. It is expected to rise further in the coming weeks as we head towards the peak festive season," said Mukul Sonawala, proprietor of wholesaler and retailer Narrondass Manordass in Mumbai.

Demand for the yellow metal usually strengthens in the final quarter as India, the world's second-biggest gold consumer, gears up for the wedding season as well as festivals such as Diwali and Dussehra, when buying gold is considered auspicious.

with a private-bank.

Two-thirds of India's gold demand comes from rural areas, where jewellery is a traditional store of wealth. This year, India's food grain production is estimated to rise due to good monsoon.

Premiums in top consumer China stood at \$3 an ounce to the spot benchmark.

China's peak season for gold demand kicks off next week with the National Day holiday, lasting until Lunar New Year early 2017.

"There was some good buying from the Chinese ahead of the holidays, and we need to see if this holds next week," said Ronald Leung, chief dealer, Lee Cheong Gold Dealers, Hong Kong.

Hong Kong prices were seen at a premium of as much as 70 cents, while premiums in Singapore dipped to 60 cents from last week's 80 cents, due to lower demand. Japanese markets witnessed good demand this week as prices in terms of the yen were low, a Tokyo-based trader said. Prices were flat to a discount of 5 cents in Tokyo.

## DGH to quantify RIL's penalty in gas dispute, Government to receive amount

**NEW DELHI (KCN):** The Oil Ministry asked its technical arm, Directorate General of Hydrocarbons (DGH), to quantify the compensation Reliance Industries has to pay for drawing out natural gas belonging to state-owned ONGC.

Oil Minister Dharmendra Pradhan, who had previously stated that his ministry

would decide on the issue by September-end, on Friday said that "the DGH will calculate the compensation within one month."

The Justice AP Shah Committee on the issue of gas migrating from idling ONGC blocks to RIL's producing gas fields opined that the compensation for "unjust enrichment" by the Mukesh

Ambani-run firm should go to the government and not to the state-owned ONGC.

"We have accepted Shah Commission's recommendations entirely. Compensation has to be calculated. Whatever Shah has recommended, government has accepted that," noted Pradhan.

"RIL's action of pro-

ducing and selling gas migrated from ONGC block is unjust enrichment," the report said, adding that over 11 billion cubic metres of gas had flowed from the ONGC block to RIL's fields between April 1, 2009 and March 31, 2015. Of this, RIL has already produced about nine billion cubic metres.

As much as 11.122 billion cubic metres

of ONGC gas had migrated from its Godavari-PML and KG-DWN-98/2 blocks to adjoining KG-D6 of RIL between April 1, 2009 and March 31, 2015. At prevailing prices, the gas was worth Rs 11,000 crore.

While ONGC's reservoirs have almost emptied, RIL continues to produce gas from D1&D3 fields in KG-D6 block,

some of it belonging to ONGC.

The Shah Committee in its report noted and accepted the independent consultant D&M Report findings that connectivity between the reservoirs in KG-DWN-98/3 (or KG-D6) block of RIL and ONGC's KG-DWN-98/2 and Godavari PML blocks is established.

## India's 'biggest' spectrum auction begins on Saturday morning

**NEW DELHI (KCN):** India's big-

gest auction of telecom spectrum kicked off on Saturday morning with seven operators in

fray for a total of 2,354.55 MHz

government. The companies

ance Communications, Idea Cellu-

The auction is 'other communications services' -- the bulk of which is scheduled from the fee paid for spectrum.

The auction timings are from 9 a.m. to 7.30 p.m., Monday to Saturday.

The 2,300-plus MHz of airwaves on the block for telecom operators are in seven bands -- 700 MHz, 800 MHz, 900 MHz, 1,800 MHz, 2,100 MHz, 2,300 MHz and 2,500 MHz. In the previous auction 470.75 MHz was on offer, which is set to fetch the exchequer \$17 billion during the tenure of licence.

gest auction of telecom spectrum kicked off on Saturday morning with seven operators in

fray for a total of 2,354.55 MHz towards which a reserve price of Rs 5.66 lakh crore (\$85 billion) has been fixed by the

government. The companies that are participating in the auction are Bharti Airtel, Vodafone India, Reliance Jio Infocomm, Reli-

ance Communications, Idea Cellular, Aircel and Tata Tele -- who have together furnished a total earnest money of Rs 14,653 crore.

The auction is central to the government realising the revenue target of Rs 98,994.93 crore that has been provided for in the budget against

### From Page - 1

lack of development in Odisha, Harichandan said 42 per cent of households do not have electricity connection till now while only two per cent get piped drinking water. Similarly, 85 per cent of rural households do not have latrines, he said.

The deteriorating law and order situation, increasing crime against women, killing of five dalits and tribals at Gumudumaha during an anti-Maoist operation, lack of roads, health services and education in majority of villages also point towards to failure of the Government, Harichandan said.

On the other hand, BJD announced that it will demonstrate in front of Central Government offices and stop goods train for four hours during its 12-hour hartal in seven Southern districts of Ganjam, Gajapati, Malkangiri, Koraput, Nabarangpur, Rayagada and Kandhamal on Saturday.

BJD spokesperson Pratap Jena announced that ambulance service, movement of passenger trains and other emergency services will not be affected during the hartal.

Jena said district leaders and workers of BJD have been asked to ensure that school and college students appearing at examinations are not put to any difficulty because of the hartal.

## Outstanding bowling effort to check India's run-rate: Henry

**KOLKATA (KCN):** Heaping praise on their "outstanding" bowling effort, New Zealand pacer Matt Henry today said that the key was to arrest India's run rate on day one of the second Test at the Eden Gardens.

India's batting line-up failed to recover from the early blows dealt by New Zealand's concerted bowling effort and wobbled to 239 for seven on day

one of the second Test. "The way we went about our work today was outstanding. We knew we had to make sure we controlled the run-rate because it is very tough in these conditions to take wickets," Henry, who was the top wicket-taker for the New Zealand with 3 for 35, told the post-match news conference.

That the wicket was under cover for a long time gave New

Zealand a slight advantage after India skipper Virat Kohli opted to bat upon winning the toss. "We knew it was important with the new ball to take advantage of it because the wicket had been under covers for a long time. So that was going to be a crucial part of the game."

"Obviously coming over here you probably don't expect conditions like that at the

start of the day, so we knew we had to make the most of that, especially being put in with the ball. It was always going to be tough work through that middle period when it would become a good surface," he explained.

"We had to find ways to put pressure on when we weren't taking wickets and as a bowling group that is a box we ticked today," the 24-year-old said.

A disciplined New Zealand impressed on a hot and humid day, with only Cheteshwar Pujara (87) and Ajinkya Rahane (77) spending some time in the middle. Henry said the key would be to maintain the tight bowling partnerships tomorrow as well.

"We have to make sure that we create pressure by building dots. Our spinners were outstanding today. Jeetan (Patel) and (Mitchell) Santer were fantastic in allowing us to build a lot of pressure and that manifested to what happened at the end of the day. That first hour tomorrow is crucial."

"We just have to keep applying our work and still be patient and do our jobs. It is going to be an important session for how the game unfolds," said Henry.

The Kiwis had a

fine start as they knocked off three top batsmen by the first 50 minutes including Kohli, whose rare lean patch continued as he got out to a reckless shot way outside the offstump.

Asked about the plan to get the best Indian batsman out, Henry said: "He is obviously a world-class player and you have to be very patient with those kind of guys. Every bowler has an individual plan of how he will skin the cat and the way Boult bowled to him was fantastic and he eventually got the result."

"It was important to make them play. It wasn't really rocket science. It's the same thing at home, new ball offering a bit of bounce you've got to make sure if you miss you miss full so we are getting them driving and hitting in the areas we want them to hit."

Henry, however, acknowledged that in the second session Pujara and Rahane batted with resolve and steadied the ship.

"They batted really well and were really composed throughout the entire middle period (of the day). We knew if we could hold the runs, the wickets would come eventually."

"It was really hot and tested us a lot mentally and physically. A lot of the guys we knew we weren't far off and if we put a couple of wickets on that scoreboard it would put on an interesting situation for the new ball (later on)."

Patel, who came in as a replacement for injured Mark Craig, made his presence felt in the final session as the Kiwis took four more wickets in their most productive session.

This was Patel's

first Test since January 2013 as he was flown in from England, where the 36-year-old offspinner was the leading wicket taker for Warwickshire with 69 scalps.

"It is a tough ask coming in from England and only having a couple of days to prepare. He's obviously got a lot of experience and was outstanding. He brought a lot of energy in the field and experience and confidence."

"I thought the way he played today was exceptional, the way both spinners played in tandem. They showed a lot of control and created pressure through those tough periods where it was really hot and important we could control that run-rate because we had to keep that squeeze on."

Indian cricketer Ravichandran Ashwin, second left, celebrates after claiming the wicket of New Zealand's Ish Sodhi, second right, on the fifth day of their first cricket test match at Green Park Stadium in Kanpur, India, Monday, Sept. 26, 2016.
