

## PRESIDENT OF INDIA GRACES 35TH CONVOCATION OF GOVIND BALLABH PANT UNIVERSITY OF AGRICULTURE & TECHNOLOGY, PANTNAGAR

New Delhi (KCN): The President of India, Smt Droupadi Murmu graced and addressed the 35th convocation of Govind Ballabh Pant University of Agriculture & Technology at Pantnagar, Uttarakhand today (November 7, 2023).

Speaking on the occasion, the President said that the Govind Ballabh Pant University of Agriculture & Technology was established to promote agricultural education and development of the agricultural sector in the country. Since inception, it has become a centre of excellence for agricultural education, research and growth. She noted that, spread over 11000 acres of area, it is one of the largest universities in the world. The President said that Nobel Laureate Dr. Norman Borlaug had named Pantnagar University as 'Harbinger

of Green Revolution'. Mexican wheat varieties developed by Norman Borlaug were tested in this University. It has played an effective role in the success of the green revolution. Everyone associated with the agriculture sector knows about the 'Pantnagar seeds'. The seeds developed at the Pantnagar University are used by farmers across the country to increase crop quality and yield. She expressed confidence that the

Pantnagar University will continue to play a leading role in the development of the country's agricultural sector.

The President said that dissemination of research being done in the field of agriculture to the farmers is necessary for agricultural development. She was happy to note that this University is assisting the rural community through various climate resilient technologies.

The President

emphasised that the education system needs to keep pace with the technological, economic and social developments taking place globally. She said that educational institutions should produce industry ready graduates who can create employment and compete in the technology driven world.

The President said that today the world is moving towards natural and organic farming to deal with problems like

climate change and soil

degradation. Eco-friendly food habits are also being promoted. She stated that researchers, scientists and faculty members of this university will play an important role in giving priority to millets in our food habits.

The President said that use of the latest technology is necessary to face global challenges. She appreciated the Pantnagar University for initiating digital solutions in agriculture through crop management, nanotechnology, organic farming etc. She noted that the University is also taking steps for use of Artificial Intelligence. She was happy to note that this University has developed its own agricultural drone which can spray several hectares of land in few minutes. She expressed confidence that the benefits of drone technology will reach the farmers soon.

## Ban On Polluting Firecrackers Across Country, Not Just Delhi: Supreme Court

New Delhi (KCN): In a key clarification aimed at checking pollution, the Supreme Court has said that its 2021 order allowing only the use of green firecrackers will apply not just to Delhi-NCR but across the country. During the hearing, the bench observed that children don't burst fireworks "these days" and it's the adults who do it, and also said that protecting the environment was everybody's duty.

Hearing a petition on Tuesday, the bench said, "At this juncture, no specific order will be necessary as this court has passed several orders, where steps have been indicated to minimise and avoid air, as well as noise, pollution. The orders will bind every state in the country, including the state of Rajasthan."

"Therefore, we make it clear that the state of Rajasthan would also take note of this and take all steps to minimise air and noise pollution, not only during the festival season, but even after

use of firecrackers, those containing Barium salts are prohibited. It noted that this was being blatantly violated and warned that top officials at various levels "shall be held personally liable" for any lapses.

In 2018, the court had also set time slots for bursting firecrackers. It had said that they could be burst between 8 pm and 10 pm on Diwali and between 11:55 pm and 12:30 am for New Year and Christmas.

The lawyer appearing for Rajasthan said, "Every citizen must see to it that they are bursting fewer crackers on Diwali," he said.

"These days, children don't burst crackers, it is the adults," the bench said.

The court also noted that there is a perception that curbing pollution and protecting the environment was only the court's duty. "It is not. It is everybody's duty," said the bench.

Earlier in the day, while hearing a petition on

pollution in Delhi, where the Air Quality Index was over 400, the Supreme Court said the issue couldn't become a political battle and that the poor air quality is responsible for the "murder of people's health".

## Former Odisha Assembly Speaker, Minister Maheswar Mohanty no more

University.

Mohanty served as the Speaker of the Odisha Assembly from 2004 till 2008.

He had won five times from Puri Assembly Constituency. Out of that, Mohanty won once on Janata Dal ticket and four consecutive times on a Biju Janata Dal (BJD) ticket.

Also known as the Vishwakarma of Odisha, Mohanty was associated

with many non-political organisations as ex-officio member and president. He had also served as the Chairman of Puri Municipality.

As a leader, he had touched the lives of many people. Speaking to Media, his neighbour in Puri, Mayadhar Moharana said, "I was shocked hearing the news about his demise. As a neighbour he had helped me a lot. He was

from Puri and senior leader of BJD, Maheshwar Mohanty. He had a reputation as a popular public leader and a skilled organizer. His contribution to the development of the state as a minister and MLA will always be remembered. His role in the development of Puri region in particular will immortalize him. As a speaker, he has contributed to a high democratic, parliamentary tradition in Odisha. His death is a great loss. May his soul rest in peace and my condolences to the bereaved family."

the President of Chakhi Khuntia Committee and helped people in the Vishwakarma Mahasabha. He has set up so many schools, hospitals, roads and bridges that wherever you turn your eyes in the Puri Assembly Constituency, you will find plaques with Mohanty's name on them."

Condolences poured in from all corridors following his demise.

## Subarnapur Dist. Advisory Committee Meeting On PC & PNDT Was Held

**SUBARNAPUR (KCN):** PC & PNDT advisory committee meeting has been held in the office mini conference hall under the chairmanship of Subarnapur Collector and District Magistrate Mr. Bimalendu Ray. In the meeting, the chairman expressed concern about the ultrasound examination of very few pregnant mothers under Biramaharajpur sub-divisional hospital of the district and the concerned health officials need to be informed. Instructed the departmental officers to take steps to provide information on the reasons. Since the girl child birth rate is low in the district, it has been suggested to form a

regular inspection committee to find out the reasons and its prevention. A decision has been taken in the meeting to place in the advisory committee. So that both the Sub - Collector will inspect the ultrasound clinics in their respective areas and present the data to the district advisory committee. For the wide publicity of the program, the district child protection officer of the

district by 20th of this month. The Chairman has directed to hold awareness meetings on the reduction of female child birth rate and female feticide among SHG members and GKS members. It was discussed in the meeting to ensure the issue of wall advertisement between the 2 major parties in favor of the ultrasound center and the departmental officials have been directed to

take necessary steps to complete the work within the next 7 days. In order to create awareness, the Collector and District Magistrate has suggested to prepare and put stickers on the information incentive, which will attract the people for the relevant information. Again, a decision was taken in the meeting to provide a newborn kit to the couple for the promotion of baby girl by the

## 12 hours work in a day is not acceptable to India labour

**Bhubaneswar (KCN):** The suggestion of some Industrial to work 12 hours in a day 72 hours in work is not at all acceptable in view of WHO/ILO report. 2 million people die from work related case each year said Dr. R.C Khuntia, Ex-MP National Vice President and President of Indian National Building Construction Forest and Wood Workers Federation while addressed the National Workers Committee of INBCWWF at Hisari in Haryana. ILO who is study 19 occupation risk factors in clear exposer of long working hour's air pollution is causing on natural death. The Working Committee strongly opposed the statement of leading IT Industry head Sri Krishna Murti Ji to increase the working hour to 12 hours in day and strongly condemned the decision of some state Govt including Haryana, Odisha, Madhya Pradesh, Uttar Pradesh, Rajasthan and

Gujrat to increase the working hours to 12 hours in a day and demanded to withdraw the order immediately. The working committee also strongly condemned the Haryana, Punjab, Delhi and Odisha state Governments for giving the construction welfare board assistance to their political cadres and demanded to clear pending cases, education subsidy, marriages subsidy and death compensation immediately.

The Working Committee meeting resolved for demanding the Central Government must review ILO Code 187 and 155 and made rule there under to make

Health and Safety as a matter of right of workers and amend the constitution of India to give Health Safety Social Security for all and accordingly adequate budget provision to be allocated.

It is demanded that all 8.75 crores identified construction workers to immediately enrolled in registration of construction workers Welfare Board and rules to be framed that all construction workers must have the welfare Board card before the construction workers engaged. It is also resolved to extend social security schemes to forest and wood workers.

administration. In the beginning, District Medical and Public Health Officer Dr. Daityanarayan Padhi gave a welcome speech and gave information about the approach of the meeting. LAIS Shovana Das informed about the implementation of the decision of the last meeting. DPHO Dr. Durgadatta Dash, DPHO Dr. Manoj Kumar Adabar, Gynecologist and Obstetrician Dr. Aravinda Mohapatra, Medical Specialist Dr. Narendra Behera, District Education Officer Laxman Bhoi, Journalist Swadhin Kumar Meher, District Information and Public Relations Officer Ashwini Kumar Bhoi, Additional Public Prosecutor Atal Bihari Mohapatra, DMRCH Sudhanshu Naik, District Child Protection Officer Chaturbhuj Das, DPM Biswambar Behera and other members were prominently present.

## Sara Ali Khan's Response To Dating Shubman Gill Sets Internet On FIRE

Getting Clicked  
Together;  
Fans believe that the  
actress was referring to  
Sara Tendulkar, the  
daughter of the India  
cricketing legend  
Sachin Tendulkar,  
whose record of the  
most centuries in One  
Day International was  
recently equalled by  
Virat Kohli who has  
been in terrific form  
during this World Cup.  
Kohli made a stellar  
comeback as he  
smashed his 49th ton  
during the recent match  
between India and South  
Africa during the  
ongoing World Cup.  
Whether they are dating  
or not, nobody knows.  
Sara Tendulkar and  
Shubman Gill could be  
best of friends, instead.  
However, recently in  
Mumbai, the two famous  
personalities were  
spotted together and then  
avoided getting clicked  
by the photographers.  
For long the rumours of  
them being with each other  
have done the rounds on  
social media. Whenever  
Shubman performs with  
the bat or fails, Sara  
Tendulkar also trends.

Bollywood actress Sara Ali Khan, who is known for films like 'Zara Hatke Zara Bachke', 'Atrangi Re', 'Kedarnath' and 'Simmra', cleared the air about the long-awaited question about her and India's star cricketer dating rumour. However, she did something more than clarify when she answered the question about her dating rumours with Gill and now her reply is going viral leaving fans with another story to chase that who actually is dating the India

## Prabhas's Salaar: Part 1 Ceasefire Ropes In This Malayalam Superstar To Present Film In Kerala

Coming from the house of Hombale films, 'Salaar: Part 1 – Ceasefire' is indeed the biggest release that the nation is going to witness this year. While the film is well decked up with an amazing ensemble cast, it will also have Prithviraj Sukumaran as an antagonist but interestingly will also be part of distribution with his production company, Prithviraj Productions. Hombale Films has joined hands with Prithviraj Productions to distribute the film in Kerala. With this, apart from playing an integral part in the film, Prithviraj Sukumaran will also be distributing the film with his production company, Prithviraj Productions. Bringing this exhilarating update about the film, the makers have shared the poster of the film and jotted down the caption, "We are delighted to partner with @PrithvirajProd to present #SalaarCeaseFire in the vibrant state of Kerala. Get ready for an unforgettable cinematic experience. Apart from this, the 'Salaar: Part 1 – Ceasefire' will also see the biggest collaboration of the two powerhouses of Indian cinema, the 'KGF' director Prashanth Neel and Baahubali star Prabhas, who are coming together for the first time to create this mega action-packed cinematic spectacle. Hombale Films produced 'Salaar: Part 1 Ceasefire' is helmed by filmmaker Prashanth Neel and the actioner boasts of the ensemble cast of Prabhas, Shruti Haasan, Prithviraj Sukumaran and Jagapathi Babu. The film will arrive in cinemas on December 22, 2023 in Hindi, Tamil, Telugu, Kannada and Malayalam.

To which she quipped: "You have got the wrong Sara, guys. Sara asked them to call the cricketer by his name pointing to his name written on the back of his jersey. (Shubman Gill, Sara Tendulkar Spotted Together At Mumbai Event Amid Dating Rumours, Avoid

Sharing the poster, they wrote, "His energy & fervour light up the screens! It is always OKK to work with @dqsalmaan." ## Bigg Boss OTT 2 Updates: Jiya Shankar Mixes Hand Wash In Elvish Yadav's Drinking Water

Elvish Yadav becomes the new captain of the house and adopts the role of a dictator, as assigned by Bigg Boss. He forces housemates to confess or make certain statements against their will. Elvish makes Falaq say certain statements against Avinash Sachdev. The YouTuber's dictator creates quite havoc in the house.

Ordering around everyone, he asks Jiya Shankar to fetch him some water. Jiya plays a prank on Elvish Yadav and pours him a glass of water, while purposefully adding some hand wash to the drink. After Elvish drinks the water, he notices the taste of soap in the water and asks Manisha to taste it. Soon, the duo get into an argument, and Elvish uses some cuss words against Jiya. Falaq questions Jiya about mixing soap in Elvish's drinking water and says she could have tried the same prank on him by adding salt or lime to it. Jiya admits her mistake and apologises to Elvish. Elvish asks Avinash to do the dishes in the kitchen area and says she won't be able to do all the dishes as they are too much. Abhishek and Manisha offer to help her in her duty. However, Aashika and Jiya get into an argument. Jiya comes in the washroom area, Elvish asks Abhishek to ask the trio to appear before him. Elvish then asks Avinash to perform certain tasks. Pooja Bhatt discusses with Avinash how Abhishek Malhan and Elvish argue primarily with females, expressing her observations.

However, Avinash gets triggered when Elvish says, "Bandi teri, romance mera." Falat retorts to Elvish's remarks saying, "Don't include me." Both Elvish and Avinash get into an argument and call each other names. Jiya comes in the kitchen area and says she won't be able to do all the dishes as they are too much. Abhishek and Manisha offer to help her in her duty. However, Aashika and Jiya get into an argument. Jiya comes in the washroom area, Elvish asks Abhishek to ask the trio to appear before him. ## Influence of systems, mantras and instruments in Indian philosophy

an exaggeration to call it an encyclopedia of ancient science. In the writings of old scholars like Mirz, Nathan, Ibn-Batuta and Shahabuddin, there is a mention of Pragyatpur system and mantra.

According to Hindu scriptures, Lord Krishna also fought with Narkasura, the father of Bhagadatta.

The subject matter of the systems may be divided into certain divisions—such as wisdom, or philosophy, yoga, karma, Eminence-sadhana, method and rules of social etiquette. In particular, the influence of Sankhya and Vedanta's Advaita judgments is found in the system texts. The system speaks of both nature and Advaita. But in system philosophy special emphasis is given to 'Shakti' (God's power).

The system has three traditions. Such as Shaiva Agama or Shaiva Pesha, Vaishnava Samhita and Shaka Pesha. Similarly, in Indian philosophy, Shaiva Agama has four modes of thought. For example Shaivasiddhanta, Tamil Shaiva, Kashmiri Shaivism and Birshaiva or Lingayat Shaivism.

Agama plays a very important role in the Indian tradition of ancient temples, idols, buildings, and the prescribed system of religious-spiritual rules.

It is said that there are 28 Agamas and 150 Upagams in Shaiva theory. According to the theory of Shaiva, Shiva is only the conscious principle and nature is the physical principle.

Shakti is the main base of Shiva. It is through Shakti that one obtains binding and salvation.

Kashmiri Shaiva Darshan is its main text Shivavutra. In it, it is said that knowledge is attained only through the vision of Shiva. Shiva is the manifestation of the universe and is made possible by the power of Shiva. This philosophy is also called 'Trik' philosophy because it recognizes the existence of three persons - Shiva, Shakti and Jiva (animal).

Birshaiva Darshan Atharth The most important text of this philosophy is "Bachanam". In which there is 'Shiva's speech'.

This philosophy is traditional and attributes all things to Shiva as the cause, destroyer and creator. There is no caste discrimination in it. Guru tradition has special importance in this philosophy.

There are two branches of Vaishnava Samhita—the Vaishnava Samhita, and the Pachyaratra Samhita. Pacharatra Samhita - Pacharatra means 'system of addiction'. In the Pacharatra tradition, there is a discussion about the creation of the world, the composition of the creation, etc. It contains a combination of numerology and yoga philosophy. Pacharatra tradition is more popular than Baikhanas tradition. It is said that it has 108. In the Vaishnava tradition, the doctrine of transendent power is also included in the Bhakti doctrine.

In Assam, the famous Shaktipeetha of Assam was commonly known as Kamaksha Keshalism. Buddhist monks used to come here for regular bathing. In the later period, the followers of this system moved to different parts of Assam and mainly settled in Hajo and Mayang in large numbers. During the 8th to 9th centuries, the Maya of Assam were known for their fundamentalism. Later this system was greatly advanced by Buddhist monks in the 12th century. As a result, the system of Maya became very popular in the fusion of Hindu and Buddhist religions.

From a historical point of view, in the 8th, 9th and 10th centuries AD, Mahayani Buddhists worshiped the system and there was a convergence of Shavism, Shaka and Buddhism. As a result, there was a wide spread of liquor, money and methun in this system of worship in the system of the fifth system of worship. The woman was used as an easy beauty for the worship of Chaushathi Yogini through coins and methun, and the system was bathed by engaging in methun.

from 8th century to 12th century - During these four hundred years, there were many serious changes in the states like Odisha, Bengal and Bihar. At that time, due to the emergence of

**Dr. Laxman Sahoo**

Siddhacharyas, new Agamas were written for the worship of Shiva, Shakti and Vishnu in the Tantric method, and religious differences were seen among the various communities and branches of Odisha. Among these branches, lighting, Kalachakrayan and Kasalayan were the main ones.

Due to the spread of Kalachakrayana and Keshyana in Odisha, all the methods followed led to the emergence of Mahakali and Mahakala Bhairava worship related to the fifth. The basic principle of easy access was that of pleasure and incomparable happiness. In particular, some critics accuse the Pith of Sri Jagannath of Puri shrine as the Pith of Sadhana. The name of Jagannath is mentioned in some of the system literature (Indrabhuti's Jnanasiddhi, Rudrayamla system). Jnanasiddhi is a great treatise and it is a famous composition of Uddyoti king Indrabhuti. The word Jagannath is mentioned in the first verse of the book of Jnanasiddhi.

From that point of view, many critics have accepted this Jagannath as the East God Jagannath of Puri. After a logical discussion of that sloka, Prahlad gave a great opinion. According to him, Jagannath is worshiped by all Jinbars or the highest Jinn, and is the supreme Buddha. Pervading in all perfections, like the sky, omnipresent (bestowing whatever he wishes), all-knowing Vastishvajri with the devotee, I am speaking of the process of Vastishadhana or tool for attaining Him. Can the word Jagannath be taken as a nominative noun here? Jnanasiddhi is a thunderous book. In Jajjan, the Sadhyadevata is Jajnasootham or Jajnasootham Buddha and is also called Jani because he is a thunderbolt.

It is clear from the discussion that the Jagannath referred to by Indrabhuti can only refer to the Buddha and should not be connected with the Jagannath of the masculine sphere. Similarly, Jagannath, denoted by Rudrayamla, can be taken in the form of Bhairava. Once upon a time there was a

startups are founded by management or engineering graduates.

Just as it is important to know and understand the technical aspects in setting up any startup. Similarly, to make a business successful, there is a need to understand the nuances of management. Management students hold the key to taking entrepreneurship forward on the path to success. The method of what to do and how

predominance of the system in the masculine realm and Jagannath was worshiped as Bhairav ??Istdev and Vimala as Bhairavi Istdev. But it is not possible to identify that Jagannath with the first Jagannath of the Chaturdhara statue in Bhairav ??Purkuttam area.

In Odisha, Bhairava was once recognized as a powerful deity by the Shaiva-Shakta-Tantric community. The Vaishnavas also accepted this doctrine. Sarla Das has expressed the words of this mighty Bhairav ??in the case of Gomukhi Keshav during the Moshali festival. Therefore, the Bhairava in this text may not be Jagannath, the East God of Puri, but the well-known Bhairava-Jagannath in Odisha in the 11th century. It seems that Vimala (Phresh Devi) of Puri, connected with it, should be accepted from that point of view.

Because the special pooja of Mother Vimala, who is the Shakti of Parangam Brahma Sri Jagannath, is going on inside the temple.

Considering Mahastami Tithi, it is considered as an important day of Shakti worship. Matri Shakti is worshiped with the help of mantras, systems and instruments. Special effects of mantras and systems can be seen today. Everyone knows Mantra to a certain extent, but only a Sadhaka knows the system. We generally have a deep fear of the system. But the scriptures say that what saves or saves the sadhaka is the system. "It is essential to have knowledge that is widespread." "Another theory, according to the Shaiva theory: "Tanoti bipula netran pechas mantra samanwitan, tranan chakurete yasmat pechas etyabhiyate" (kamika agam). Here also the improvement of the sadhaka is achieved.

If we consider Paranbrahma as formless and subtle, his physical and gross being is the power. This energy is considered as the main source of creation and

startups are founded by management or engineering graduates.

Just as it is important to know and understand the technical aspects in setting up any startup. Similarly, to make a business successful, there is a need to understand the nuances of management. Management students hold the key to taking entrepreneurship forward on the path to success. The method of what to do and how

is prevalent elsewhere.

In the system scriptures, Viprasanstan, Dhatsanstan, Puranakyan, Kasa-Kathan, Bratabarnanan, Shauchashaujudhan, Narak Naran, and Harachakra are described in the scriptures. This was not the case in the Vedic age. It was introduced in the Puranic era (at least after the 4th or 5th century AD).

In the name of system, many supernatural actions have been introduced in Hinduism.

In it, treatment, yogasadhana, a irs adhan a, determination of the chakras in the body, killing, genealogy, pillaring, mohan, adhanatan, etc., various practices of worshiping Shiva and Durga and Pancha Makara, B am a c h a r a , Kamashastra, physical science, supernatural power tools etc. have been described. Even in the name of system, various sensual activities and intoxicating food are also performed. Tantrics also display supernatural powers and siddhis.

Hence all siddhi-giving, wish-fulfilling, liberating systems are considered to be part of Yogamaya Shakti worship. Mother Yogamaya is the energy that is the vibration or life of creation. In whatever form she appears, in whatever form she is worshipped, she is always motherly and benevolent.

According to the fifth puja of the system, the mother who receives the sacrifice at night never wants the destruction of anyone. Mainly worshiping this embodiment of her for creation and observance is "Adya Devi Paratparal Bhagwati Mata Masagari, Brahmananda Pranidaya Har Kalvushachakra Chakraswari, Maya Mohamayi Janodaikai B r a h m a l a n d Bhandodari, Trahimang Bimalle Sav Sukhkare Srikshere Rajeshwari" (Sri Sri Vimalastakam).

Sanskrit - noun - (tan dhatu = to spread + authority. The power by which the worship of Shiva and Shakti is spread.

Sarbasudha 192:

There are 64 of the books of scriptures: The books were collected in Bangladesh; 64: Khod is prevalent in Nepal, Mithila and other countries and 64: Khod

seen as meaningless and bought for the purpose of various kinds of siddhis such as killing, exaltation, and family. According to the system, mainly the Shaktas are worshiped. Most of the mantras recited by the system are meaningless and monosyllabic such as "Kling, Hling, Shring, Aing, Hring, Ghri, Ing, Dung". Madhya and Mudra are used in fifth form.

It is said that tantrics worship women like Damuna Dhabani by violating them. Seeing the Hindus, the system was propagated among the Buddhists as well. Buddhists have many system texts. The circulation of those texts is in China, Tibet and Nepal. It is written in Barhi System that Gemini, Kapila, Narada, Garga, Bhrigu, Sutra, Brihas Adipati Rusi composed some sub-systems (Hindi - Shodsagar).

Panchashkas in particular were skilled in systems, mantras, instruments and yoga. It can be seen in books like Achutananda's 'Bayalish Patala', Voop Samhita, Balaran Dasa's Thirty Six Gupta Gita.

It is believed that - the deity is not submissive unless he possesses the mantra quality. Mantra is subordinate to Brahmins. So the deities are controlled by the worship of Brahmins and mantras. Mantra is the vessel of scriptures. Taking refuge in mantra makes one cross the ocean of knowledge. A chutana and a's doctrine in Bodhuni Granth, "Ekkishra mantra is the world's sar/Bhakti's daily exaltation."

Each deity has its own mantra, such as Hli meaning Hare, Kling meaning Krishna and Shling meaning Rama. In the same way, Balabhadra is the real name of Hli. Jagannath is Kling and Subhadra is the name of Shling. So, in short, it can only be said - "Mantra will multiply, machine will sit and system will be done."

## IDENTITY in STARTUP

entrepreneurship in India. It has given an opportunity to highly educated youth to create their identity along with the process of changing market. A large number of engineering and management graduates are now looking to do something on their own instead of running after jobs in bureaucracy or multinational companies. Overall, setting up a startup right now looking at

**Vijay Garg**

the huge number of startups are founded by management or engineering graduates. Just as it is important to know and understand the technical aspects in setting up any startup. Similarly, to make a business successful, there is a need to understand the nuances of management. Management students hold the key to taking entrepreneurship forward on the path to success. The method of what to do and how

to do it in entrepreneurship can be learned only through the learning of management. Overall, knowledge of management is very important for a big business idea, only then the youth will be able to be successful as well as earn money. Skills are necessary: ??To start a startup, first of all there should be an idea of ??a new product or service which has a market. There is demand. You must

have a new, cheaper and better way to meet the existing demand. After this, you should know the art of presenting your idea to investors and partners. Apart from this, other skills are also required to run any startup successfully. One must have qualities like strong leadership and decision making abilities to deal with the uncertainties and challenges that come with entrepreneurship. Building a cohesive team and engaging with stakeholders also

requires effective communication skills. Apart from this, one should also have the skills of budgeting and financial management to take the business forward while giving continuity to its growth. Marketing and sales skills are also required to deliver your products or services to customers. Initiatives of Business Schools: Continuous efforts are being made by the business schools of the country in this direction through competitions like

India's startup culture is in a new era. The interest of the youth of the country is increasing rapidly and it can be said that the success of startups has further promoted

business plan and internships to develop practical skills among the students. Additionally, B-schools provide guidance, resources and funding opportunities for entrepreneurship. With this objective, on-campus incubators and accelerators have been established, so that students can learn the tricks of entrepreneurship along with studies.

# Every Vote Will Lay Foundation Of Developed Mizoram: Amit Shah

**New Delhi(KCN):** Union Home Minister Amit Shah on Tuesday urged people in Mizoram, especially the youth, to come out and vote in large numbers, as every vote will lay the foundation of a developed and prosperous Mizoram.

"I urge our sisters and brothers in Mizoram, especially the youth, to come out and vote in large numbers. Each and every vote will lay the foundation of a developed and prosperous Mizoram," Mr Shah said in a post on 'X'.

Polling for the

Mizoram Assembly began on Tuesday, the counting of which is scheduled on December 3. The voting began at 7 a.m. on Tuesday and will continue till 3 p.m. A total of 174 candidates are in the fray. According to the CEO, Mizoram, the total number of electors in Mizoram stands at 8,51,895. Out of which 4,12,969 are male, 4,38,925 are female, and 1 (one) third gender.

There are a total of 4,973 service voters in Mizoram. First-time voters who are in the

age group of 18-19 years stand at 50,611. The sex ratio of voters

in Mizoram is 1,063. The electoral population (EP) ratio stands at 63.27.

The total number of polling stations is 1276, out of which 525 fall in urban areas and

751 in rural areas. As many as 2,058 votes have been cast through home voting and 7,497 votes through postal ballots at designated facilitation centers for the Mizoram Assembly elections.

The 40-member state assembly is the only poll-bound state where the Congress and the Bharatiya Janata Party (BJP) are not the primary contenders. In the 2018 assembly elections, the Mizo National Front (MNF) secured 26 seats with a vote share of 37.8 percent and emerged victorious, defeating the

10-year-old Congress government.

The Zoram Peoples Movement (ZPM), the regional party that surprisingly came in second in the 2018 polls, bagged eight seats. It is seen by many as the main contender for the ruling party.

The Congress bagged five seats in the 2018 assembly polls, while the BJP got one, securing its first seat in the north-eastern state. The MNF is part of the BJP-led National Democratic Alliance (NDA), but it has not sought a pre-poll alliance with its partner

in the state. The BJP is contesting 23 seats. In 2018, it contested in 39 constituencies.

Incumbent Chief Minister Zoramthanga who is also the president of Mizo National Front party, is seeking re-election from the Aizawl East I constituency. State Congress Chief Lalswata is in the fray from Aizawl West 3 constituency. Lalduhoma, who is the founder and president of the Zoram Nationalist Party is in the fray from Serchhip.

## SCINTILLATING OXFORD UTSAV 2023 HAD BOBBY CHAKRABORTY AS THE PRESIDENT

**Kolkata(KCN):** Annual concerts are a regular feature of every school. Every school tries their best to make it as colourful and spectacular as possible. But what is so special about the annual concert of Oxford High School, Howrah that makes it a cut above the rest?

Let us try and find that out from eminent Actor/Activist/Teacher of Method Acting, Bobby Chakraborty who was specially invited, as the 'President' of Oxford Utsav 2023, by S. C. Dubey, the hon'ble Rector and Chairman of Oxford High School, on November 5th, at SaratSadan auditorium, Howrah Maidan.

Here's what Bobby had to say:-  
"I have shared a long and strong relationship with... Oxford High School; Dubey Sir, who's a perfect gentleman; the dynamic Activity Coordinator- Sujata Singh ma'am; along with every teacher and student, through my Anti Addiction Campaign and otherwise. Hence the

magnificent Oxford Utsav is an event I can't afford to miss in my annual calendar. But beyond the bias towards OHS and Dubey Sir, if one attends this cultural program once, the person will be desperate to return back the next season as an audience, that's for sure!

The main reason being the extremely dedicated, honest, hardworking and creative team of Dubey Sir. The teachers, the non teaching staffs, the students, with the active support from their parents, work hard for months before the event, to make it unique and

special. Oxford Utsav is not only about scintillating song and dance numbers...it not only about the well engineered show of lights on stage...it's not only about the superb costume design of every performer...it's much more than that.

Dubey Sir and his brainchild 'Oxford Utsav' carries 100% Indian values, culture and custom. It carries an effort to go beyond the cultural extravaganza to award each and every student who has faired supreme in various academic and co-curricular activities

annually. It's an honest effort to recognize and award...their parents, super successful ex-students who are making their school proud and also every deserving teacher who has shaped the life and personality of these students.

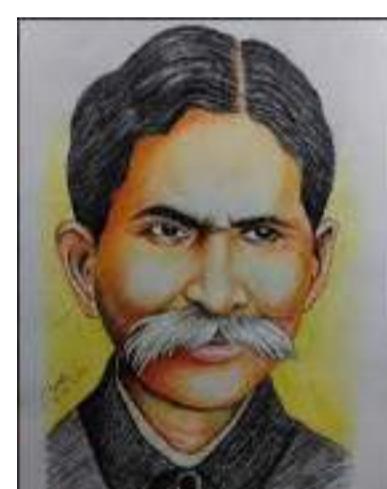

Hence Oxford Utsav 2023 wasn't any different, only a notch above its previous versions. Personally I was honoured to attend the event as the 'President'. I was touched by the warmth and affection from...Dubey Sir, Rector-Dubey Ma'am, Sujata Ma'am along with every teacher

and student of OHS as usual. The official photographer of the event for me was a very hardworking and dedicated soldier of mine named Anurag Pandey from class IX-B. The song and dance items covering the rich cultures of different states of India; the extremely entertaining item to raise awareness against Dengue and Malaria; the hilariously performed drama - Sukumar Ray's 'ObakJolpaan', the magical Yoga performance were all splendid to watch. But the finale, which had the Karate performance of the children under their instructor Sudip Sir, gathered the loudest cheers. Among all the awardees, multi talented Supriya Kumari won the coveted award of 'The Student of The Year'. It was a heartwarming moment when Oxford Utsav 2023 ended, with our National Anthem being sung by every member present in the packed auditorium. "

**Bhubaneswar (KCN) :** The Gangadhar Meher Pratisthan has submitted a letter to the Chief Secretary of Odisha with the request that a postage stamp should be issued on the Centenary of his death which will happen on 4th April 2024.

A team of three members of the Pratisthan comprising of Sanjib Chandra Hota, Former State Election Commissioner, Advisor of the Pratisthan, Narendra Kumar Mishra, Former Vice Chancellor of Odisha Culture University, Chairman and Mihir Meher, Convener of the Pratisthan called on Pradeep Jena, Chief Secretary to the Government of Odisha recently and requested him that the State Government should initiate measures with the Government of India to release the stamp in honour of Swabhabha Kabi Gangadhar Meher in April next year.

Considered as one of the prodigies in the Odia literature, the legendary poet was a literary Midas, who transformed everything into gold by the alchemic touch of his genius. He was a born poet of delicate charm. He was essentially a poet of intuition and had a penetrating insight. In almost all his writings there is a glimpse of originality.

The great poet, who is a household name in Odisha was born in 1862 in a weaver family. Gangadhar Meher could read only up to the Middle Vernacular Standard, hurdling over many diverse disadvantages. As a young boy, he had heard the Odia Ramayana composed by

Balaram Das and the Odia Mahabharata by Sarala Das and was greatly influenced by them. He also read and mastered a great number of Sanskrit books; and became proficient in both Hindi and Bengali.

The Chief Secretary has assured the team that all steps will be taken for the release of the postage stamp. Earlier, Anil Dhir, Vice President of the Eastern India Philatelists Association too had written to the Minister for Communications in regard to issue postage stamps on the luminaries of Odisha. Besides, he has also requested that the PMG Odisha should also issue a Special Cover on the poet laureate of Odisha on the occasion. Eminent artist and philatelist Hitesh Seth has also submitted his artwork which can be considered as a design for the proposed stamp.

## ICAR-CIFRI inaugurated knowledge empowerment programme of farmers on fish culture in cages

**Barakpore(KCN):** The ICAR-Central Inland Fisheries Research Institute (ICAR-CIFRI), Barrackpore, Kolkata, in collaboration with the Department of Fisheries, Government of West Bengal, today inaugurated a first-of-its-kind training programme on fish production enhancement through cage culture in inland open waters of West Bengal for the farmers of Bankura and Purulia districts. The programme is being held under the leadership of Dr. B.K. Das, Director, ICAR-CIFRI, and is aimed at imparting knowledge and

skills to fish farmers and entrepreneurs on the latest technologies and practices in cage culture. Cage culture is a sustainable and high-yielding aquaculture practice that can significantly boost fish production from inland open waters. It involves rearing fish in floating cages, which can be installed in reservoirs, lakes, and rivers. Cage culture offers several advantages over traditional aquaculture methods, including higher stocking densities, ease of feeding and monitoring, management and harvest

besides maintaining improved water quality, and reduced disease outbreaks. This hands-on training programme will cover a wide range of topics, including cage design and construction, site selection, stocking density, feed management, and disease control practical classes on feed preparation, disease diagnosis and treatment, and water quality parameter analyses. Participants will also have the opportunity to gain hands-on experience in cage culture through field demonstrations.

Speaking at the inaugural function, Dr. B.K. Das, Director, ICAR-CIFRI, said, "Cage culture has the potential to accelerate and revolutionize fish production in West Bengal from huge natural resources. This training programme will provide fish farmers and entrepreneurs with the necessary knowledge and skills to successfully adopt this technology and increase fish yields vis-à-vis their income."

First time demonstration of Cage culture technology under the able leadership of ICAR-CIFRI, is in progress at Kansabati reservoir, Bankura enabling the State to join the elite club of cage culture State in the country.

The training programme is expected to benefit a large number of fish farmers and entrepreneurs in West Bengal, and will contribute to the overall growth of the aquaculture sector in the state.

In West Bengal, This

water governance. They will be given first-hand knowledge about water treatment processes through visits to Water Treatment Plants (WTPs) in their respective cities. These visits will elucidate the vital procedures involved in delivering clean and safe drinking water to households. Additionally, women will gain insight into water quality testing protocols which ensure that citizens get water of the required quality. The overarching goal of the campaign is to instil a sense of ownership and belonging among women towards water infrastructure.

In

water supply scheme for Krishnanagar Municipality, existing water supply for Kalyani, rejuvenation of serampore water works (Phase-1) and water treatment plant at Jangipur. India has more than 3,000 water treatment plants, with a designed water treatment capacity of more than 65,000 MLD and operational capacity of more than 55,000 MLD. During the said campaign, women Self Help Groups (SHGs) will visit more than 550 water treatment plants, with a combined operational capacity of more than 20,000 MLD (more than 35% of the country's total) throughout the country.

## 49th Raising Day celebrated at NTPC Ramagundam

**Peddapalli, (KCN):** NTPC Ramagundam celebrated its 49th Raising Day on Tuesday. The first part of the celebration commenced with the participation of HOP (R&T) Kedar Ranjan Pandu, GMs, HODs, and other senior officers along with their family members at the Main Shopping Complex. In the second part of the event, Kedar Ranjan Pandu unfurled the NTPC Flag followed by the NTPC Geet. A cake cutting ceremony and the release of balloons symbolizing hope and commitment of

NTPC to the Nation was organized. Congratulating the staff, Pandu emphasized the need for a more sustainable approach, urging a transformation in the current way of working. He stressed the importance of seniors guiding and mentoring their juniors as they would represent the future of the organization. The event continued with a virtual address of the CMD Gurdeep Singh who highlighted NTPC's achievements, developments, and future challenges. He also inaugurated various IT-

# Overdrive For Odia Use

**Bhubaneswar(KCN):** Additional Chief Secretary Odisha Language, Literature and Culture, Satyabrata Sahu reviewed the enforcement drive to implement the State Government's decision for mandatory use of Odia on signboards in all shops and business establishments.

ACS Shri Sahu chaired a high level meeting attended by Secretary Labor & ESI R Santhnagopal, Labor Commissioner N Thirumala Naik, Special Secretary Madhu Sudan Dash, Director, Dilip Rautray and other

senior officials. According to official sources shops and business establishments that continue to use English on signboards are taken to task. Till 31 October, 1378 places were raided and 1135 Business Establishments were issued Show Cause Notices for the lapse. Earlier the State Administration had issued an official circular informing all shops and business establishments to write the names of their establishments prominently in Odia, the state's official language.

Section 38 of the

Odisha Shops and Commercial Establishment Act, 1956, stipulates that all signboards and

nameplates should be written in Odia with a provision to prosecute violators.

It was also decided in

the meeting an awareness drive would be conducted to sensitize people and business establishments.

Similarly, keeping in

Accordingly, opinion has been solicited from the Labor Officers, said a senior officer.

It was revealed in the meeting that by 31 October, the State Administration has received 108 complaints and 1461 laborers have been rescued from various countries and states. While the Government of Odisha has been engaging with these Pravasi Odias in different ways and circumstances, Odisha Paribar Directorate has been the single point of contact for the people of Odisha staying both within

and outside the country with the State Government. In fact this effort has strengthened the relationship between NROs and the State government and its people through an organized liaison framework, said an official.

Chief Minister Naveen Patnaik's direction for a mechanism whereby People from Odisha spread across the States and other countries can contribute and be a part of this transformative journey, Odisha Paribar Directorate is serving the purpose, said the officer.

## NTPC Raising Day celebrations at Kaniha

**Kaniha,(KCN):** The 49th Raising Day of NTPC was celebrated in a befitting manner at NTPC Kaniha. Shri N. Srinivasa Rao, Executive Director, NTPC Kaniha hoisted the NTPC Flag at Administrative Building premises and addressed the assembled employees. Shri Ashok Kumar Sehgal, GM(O&M), Shri Satya Rama Krishna, GM(ADM), Shri Jeetendra Prasad Roy, GM (Proj), Shri A. J. Rajkumar, GM(Maintenance), Shri Brij Kishore Pandey, AGM(HR), Shri Brij Mohan Singh, DC(CISF), Heads of Departments, representatives of Unions and Association were present on the occasion.

In his address, Shri Rao traced the success story of the company and recalled with pride, the noteworthy contribution made by employees of NTPC Kaniha, in making the company a great organisation. He called upon the employees to discharge their duties with honesty

and devotion so that NTPC could scale new heights and achieve new milestones. Raising Day address of CMD Sir was webcast live at the auditorium for the employees. Started on this day in 1975 from ground zero with zero megawatt has today emerged as a diverse and vibrant energy conglomerate to an installed capacity of 73874 MW with diversified portfolio of thermal, hydro, solar, wind etc.

NTPC Group generated

248 billion Units till Oct FY24 as compared to 232 billion Units till Oct FY23, registering a 7% growth YoY basis meeting country's 25%

energy requirement. In Mining front, NTPC has achieved a remarkable 86% increase in coal production of 19 MMT till 31st Oct in FY24 as compared to the same period in FY23. Coal despatch also surged by 94%, ensuring efficient supply to meet the Nation's energy requirements. The success story of our company is well reflected in the 433rd position in Forbes Global Ranking. NTPC happens to be the only PSU to make it to the list. Congratulations. This feat has been possible by the concerted efforts by all Ntpcians under the able leadership of our Chairman Saab.

Earlier, in the morning employees, members of their families, school children and CISF personnel took part in a Power Walk organised to commemorate the NTPC Raising Day led by Shri N. S. Rao, the Walkathon started from DAV School and concluded at RC in the Township.

## 'Wings of Steel' award for Jindal Stainless' first woman overhead crane operator |

Kalinganagar, (Sapan Kar):- The Indian Steel Association (ISA) today conferred its 'Wings of Steel' award to Jindal Stainless's first woman overhead crane operator, Ms. Minu Mohanta under the 'Gender and Diversity' category. Steel Secretary, Mr Nagendra Nath Sinha, presented her the award for

"perseverance and steely resolve" in overcoming challenging circumstances and for being an inspiration for many. She was born to a mason father, married at the age of 14 and widowed at 25. She was also conferred the Jury's Special Award for showing determination and resilience in the face

of adversity at the 4th edition of the ISA's Steel Conclave held in New Delhi. Ms. Mohanta, started working as a stone crusher in a quarry for six years before joining Jindal Stainless — India's largest stainless steel manufacturer — as part of its housekeeping team for the steel melting shop in 2011. Driven by her desire to learn machine operation, she quickly adapted to managing engine-powered cleaning vehicles. She took inspiration from her supervisor and fellow women colleagues and expressed her interest in tackling one of the most demanding plant operations, the management of overhead cranes within the plant.

# India Mobile Congress 2023 Concludes to a Grand Success with over 1.5 lakh participants from 67 countries attending Asia's Largest Technology Forum

**Bhubanewsar(KCN) :** Over 1.5 lakh record number of participants from 67 countries participated in the 7th Edition of Indian Mobile Congress (IMC) 2023, the largest telecom, media and technology forum in Asia, jointly organized by the Department of Telecommunications (DoT) and the Cellular Operators Association of India (COAI). The 3-day exhibition-cum-forum held from October 27-29 under the theme of Global Digital Innovation was inaugurated by Hon'ble Prime Minister Shri Narendra Modi in the presence of Shri Ashwani Vaishnav, Union Minister for Communications and Shri Devesh Chauhan. It was also attended by industry stalwarts Shri Akash M Ambani, Chairman of Reliance Jio Infocomm Ltd, Shri Sunil Bharti Mittal, Chairman of Bharti Enterprises and Shri Kumar Mangalam Birla, Chairman of Aditya Birla Group. PM Modi also

announced the '100 5G lab Initiative' to develop 5G applications and build a 6G-ready ecosystem in the country. The forum witnessed over 620 use cases displayed across Technology & Telecom, Govt & PSUs and Startups Sector. A notable addition to this year's IMC was Aspire, a pioneering start-up initiative showcasing around 400 startups from across the country. Leading Indian companies like Jio, Airtel, Vodafone Idea, BSNL, TCS, L&T, HFCL, Tanla, VVDN, Tejas, Optiemus and others, notable international brands like Ericsson, Intel, Nokia, Cisco, Accenture, AMD, Qualcomm, Giesecke & Devrient, MediaTek, Red Hat, Bosch, VMware, Ciena and others were also present at the exhibition. Speaking on the success of India Mobile Congress 2023, Mr. Ramakrishna P, CEO of India Mobile Congress said, "It has been a great experience seeing IMC grow significantly over the years. As we establish IMC as a premier technology platform going beyond telecom, this year's edition of IMC had a spectacular showcase of future technologies and engaging discussions spread over 3 days. We are really happy to note the highest-ever attendance of over 1.5 Lakh at IMC 2023. Several government departments like the Ministry of Railways, Ministry of Heavy Industries, Ministry of Electronics and Information Technology, ISRO,

## Vitesco Technologies aims to achieve 100% carbon neutral production by 2030

**Pune :** Vitesco Technologies a leading international manufacturer of modern drive technologies and electrification solutions recently celebrated the second anniversary of its Pune facility. Dr. Hans-Jürgen Braun, Senior Vice President of Operations at Vitesco Technologies, visited the facility to commemorate the occasion. The facility is spread across 20 acres and contains more than 17580 m<sup>2</sup> of manufacturing space, including over 900 employees.

The Pune plant, like all Vitesco Technologies facilities, serves its grid demand entirely through renewable energy sources. Furthermore, the site generates sustainable electricity. All new photovoltaic systems have been built

in the Talegaon facility, generating 03 GWh of electricity from solar energy. The installed capacity is currently 2.6 MW, with the company aiming to increase it to 3.6MW by the end of the year. The facility is also strongly driving automation, digitization, and Industry 4.0, with over 25 cobots and robots installed on the production lines and shopfloor. During his tour of the facility, Dr. Hans-Jürgen Braun Head of Operations at Vitesco Technologies said: "We have a clear vision of the key characteristics of the plant of the future, which are sustainable, smart, and predictive. And our plant in Pune already embodies these qualities with highly automated production lines, state-of-the-art Industry 4.0 solutions and a strong

focus on sustainability. But what is most important for me is the highly motivated team, because I genuinely believe that people, not only technology, will shape the plant of the future. I am very impressed with India's business competency and the employees' enthusiasm to support us on this journey."

Dr. Braun further highlighted that "The carbon footprint must be dramatically decreased to combat climate change, which is one of the major issues of our time. We must take on responsibility for our environment. As a result, the plant of the future must be climate-neutral in operation. That is why I am proud that the plant in Pune has truly established itself as a driver of sustainability. The WHEC aims to reshape ideas and practices in higher

## LONG DISTANCE SPECIAL TRAIN SERVICES IN ECoR:

Bhubanewsar,(KCN):For the convenience of general public, especially passengers and keeping in view the demands in important routes, it has been decided to extend the services of existing Special Trains for another more trips. ## EXCEPTIONAL EXPERIENCES AWAIT SINGAPORE AIRLINES CUSTOMERS

**Singapore:** Airlines (SIA) today unveiled its all-new flagship SilverKris and KrisFlyer Gold lounges at Singapore Changi Airport Terminal 3, following a S\$50 million re-design, upgrade, and expansion project. This will further enhance the on-ground customer experience at the Airline's main hub, and comes as the demand for international air travel from and through Singapore takes off once again.

The Private Room, the First Class section of the SilverKris Lounge, the Business Class section of the SilverKris Lounge, and the KrisFlyer Gold Lounge can collectively accommodate around

1,150 customers within their 6,100 square-metres, translating to 30% more seats and space. This also doubles the capacity that was available during the pandemic while the upgrading works were going on. The Airline has created a sanctuary that has been thoughtfully designed to enhance the comfort and convenience of diverse groups of travellers, and meet their evolving needs in the coming years. Customers will be able to enjoy world-class products and services, as well as enticing food and beverage options, around the clock at the lounges before their flight.

Mr Goh Choon Phong, Chief Executive Officer, Singapore Airlines, said: "Opening these lounges at this time signals our commitment to SIA's premium brand and growth strategy. It reinforces our position as Changi Airport's anchor airline, and reflects our confidence in Singapore's future as a pre-eminent global air hub."

## WHEC recognizes Amrita Vishwa Vidyapeetham as excellence worldwide in Gender Equality

**Barcelona:** Amrita Vishwa Vidyapeetham was invited to the UNESCO World Higher Education Conference (WHEC), which recently took place in Barcelona, Spain. UNESCO recognized Amrita as one of five universities of excellence worldwide for its performance in gender equality.

The WHEC aims to

education to ensure sustainable development for the planet and humanity, as well as to define and prepare a roadmap for a new era of higher education. As the world comes out of COVID-19, the WHEC's goals and strategic scope remain, and the new timeframe represents an opportunity to deepen and expand common efforts of knowledge

production, policy dialogue, exchange, and networking. Swami Amritaswarupananda Puri, President of Amrita Vishwa Vidyapeetham, participated in a round table called "Universities' Contribution to Gender Equality: A global perspective". Adding to his views Swami Amritaswarupananda expressed how Amrita is

making a difference in terms of gender equality and which policies have been put into place at the university level. Gender equality is number five in the United Nations' list of 17 Sustainable Development Goals (SDGs). He explained how the culture of gender equality is not implemented only in terms of policies within Amrita, but also practiced in spirit. The round table included Dr. Gloria Bonder, UNESCO Chair on Women, Science and Technology; Dr. Ricardo Vilanueva Lomeli, Rector General, University of Guadalajara; Ms. Elizabeth Shepherd, Leader of the Consultancy team, Times Higher Education; and Dr. Victoria Galan-Muros, Chief of Research and Analysis,

# Anmolpreet Singh, Nehal Wadhera set up Punjab's maiden SMAT title victory

**New Delhi:** Anmolpreet Singh and Nehal Wadhera put on a six-hitting clinic in Mohali against Baroda as Punjab scored 223/4 - the highest-ever total in a Syed Mushtaq Ali Trophy final. Anmolpreet went on to complete an incredible hundred while Wadhera smashed 61 and the pair added 138 runs off just 57 balls. Baroda fought fire with fire via Ninad Rathva (47 off 22) Abhimanyu Singh (61 off 42), Krunal Pandya (45 off 32) and Vishnu Solanki (28 off 11) and took the chase right till the end. An incredible 19th over from Arshdeep Singh however, ended their pursuit and gave Punjab their maiden SMAT title in what was their fifth appearance in the final of the tournament.

Punjab were rattled on the first ball after being asked to bat as Abhishek Sharma, their leading

run-getter this season, played an uppish drive that was sharply taken by Jyotsnil Singh at short cover. Abhishek's opening partner Prabhdeep Singh soon dragged a review back with him after feathering a ball from Atit Sheth to Vishnu Solanki behind the stumps. From 18 for 2 in the fourth over, Anmolpreet Singh and Punjab captain Mandeep Singh swiftly rebuilt the essay. Mandeep was proactive from the beginning, first taking down his opposite number - Krunal Pandya - with a four and then doubling up against Sheth with a swivel pull and straight down the ground. Despite the early setback, Punjab recovered to 44/2 by the end of the PowerPlay. The pair moved along steadily in the post-PowerPlay phase, with a 14-run 10th over from Lukman Meriwala taking them to a healthy

New batter Nehal

80/1 at the halfway stage. However, Pandya pulled one back for his side when Mandeep went for a premeditated reverse-sweep and ended up top-edging the ball to short fine leg to fall for a 23-ball 32. But Punjab's batting onslaught did not come to an end. Anmolpreet, who has been operating with a season strike of 190, continued to bully bowlers on his way to a 36-ball half-century. New batter Nehal

Wadhera joined in on the fun as the pair hit two fours each off Abhimanyu Singh in a 19-run over. The duo added 100 for the third-wicket off just 48 balls, as Anmolpreet found the next gear as he completed a stunning 58-ball century. The incredible death-overs carnage began midway through Meriwala's over in the 17th when Anmolpreet carted three successive sixes. There were six more of those

and three fours to come in the last three overs as Punjab amassed 75 runs off the last 21 balls. Anmolpreet, who hit 10 fours and six sixes, finished unbeaten on 113 while Wadhera got 61 off 27, with six fours and four sixes.

Baroda's hopes of a flying start to keep up with the steep asking rate were thwarted early by the tournament veteran Sidharth Kaul, as he had Jyotsnil Singh caught behind in the second

over. One-drop batter Ninad Rathva then took over to put Baroda back on track. He started by going after Kaul with three fours in the fourth over before smashing Abhishek for a six and a four. In the final over of the PowerPlay, he lofted Baltej Singh for one six and two fours to take Baroda to 64/1. All this while, opener Abhimanyu Singh watched on from the other end at 6 off 9. Rathva threatened to dwarf the target in front of them but Mayank Markande arrived to put a lid on his run-making as he had the batter out stumped for 47 off 22 balls.

Abhimanyu began to speed up in the company of his captain Krunal as they dragged the team to 89/2 in 10 overs. The pair then went about raising the run rate by throwing their bats around wildly and finding success. The carnage began with a Krunal six over long with

against Harpreet Brar in the 12th over while Abhimanyu carted one against Baltej in the 13th. Both overs fetched 11 runs each, before Markande was taken for 21 runs in the 14th over where Abhimanyu hit a hattrick of sixes to bring up his 36-ball half-century. That took Baroda to 10-an-over with 139/2 in 14, and yet they were staring at a daunting equation - 84 off 36 balls. Abhimanyu and Pandya cranked up the pressure by taking that down to 64 off 24 but the former fell for a 42-ball 61 in Arshdeep Singh's over. It came down to 58 off 18 - two more than what Punjab got in the last three overs. Vishnu Solanki turned the game on its head once again as he saw through Siddharth Kaul's change of pace and lengths to smash him all around the ground for 24 runs in the over. But up stepped Arshdeep Singh to extinguish Baroda's

Brief Scores: Punjab 223/4 in 20 overs (Anmolpreet Singh 113, Nehal Wadhera 61\*; Krunal Pandya 1-30) beat Baroda 203/7 in 20 overs (Abhimanyu Singh 61, Ninad Rathva 47, Krunal Pandya 45, Vishnu Solanki 32; Arshdeep Singh 4-23) by 20 runs

## Santner, Rachin Ravindra picked for Bangladesh Tests

**New Delhi:** Mitchell Santner and Rachin Ravindra are part of a strong spin contingent in New Zealand's squad for the two-Test series against Bangladesh scheduled to be played later this month. Santner played the last of his 24 Tests in 2021 while Ravindra, one of the stars of the ongoing World Cup, hasn't donned the New Zealand whites since the home series against Bangladesh in January 2022.

Santner, who enjoyed a strong Plunket Shield season taking 15 wickets at an average of 26.00, joins a spin unit that also

comprises Ajaz Patel and Ish Sodhi. Glenn Phillips and Ravindra are the all-rounders who provide further spin options for captain Tim Southee. "We've selected a squad we think can compete and succeed in the Plunket Shield campaign last summer

Sam Wells said. "With Ajaz, Ish, Mitch, Glenn and Rachin, we have a strong spin group that will offer good variety and options during the series. Mitch had a strong back half of the Plunket Shield campaign last summer

and has made good strides in his red-ball bowling. He brings a wealth of experience in sub-continent conditions and adds depth to the batting line-up as a genuine allrounder. Rachin brings a left-arm orthodox option and has improved considerably over the past 18 months with the ball - and his performances with the bat at the World Cup speak for themselves. It's great to be able to call upon the services of Kyle again after a period out of the team and he will bring a different dimension to the pace group."

New Zealand would seem sufficiently stocked in the seam-bowling department too with Kyle Jamieson returning to the Test squad after undergoing back-surgery in February. He will join Southee and Matt Henry as the three pace options, with Trent Boult making himself unavailable for the tour. The Black Caps' first assignment in the 2023-25 cycle of the World Test Championship will feature a coaching team led by Luke Ronchi with regular coach Gary Stead returning home after the World Cup to prepare for the home summer.

first, but he persisted in interfering with play. This made KL Rahul intervene and, in an unusual show of fury, confront the invader. "It's not for you; that place is for you (pointing towards the crowd). Go off, stop coming everywhere," Rahul was heard saying in the viral clip. Coming to the World Cup, Bangladesh ended Sri Lanka's slim chances of clinching a World Cup semi-final spot with a three-wicket victory at the Arun Jaitley Stadium on Monday. Sri Lanka and Bangladesh clashed have seen some memorable moments. In 2018, Nazmul Islam and other teammates took to 'Nagin Dance' celebration, which was avenged in 2022 when Chamika Karunaratne mocked Bangladesh with the 'Nagin Dance' celebration. Both teams didn't disappoint in entertaining the crowds as Bangladesh chased 280 for victory. Nerves seemed to get the better of the Bangladesh team and they ended up losing a couple of wickets towards the end but Towhid Hridoy ensured The Tigers emerged victorious.

## 'Don't know where the common sense went, it was disgraceful'

**New Delhi:** "It's time for you to go" - that was the gist of the send off that Angelo Mathews finally managed to give Shakib Al Hasan, pointing at his wrist with a wry smile on his face. Maybe it was a moment of retribution for the veteran Sri Lankan all-rounder, who in the first innings had become the first player in international cricket to be timed out, with the umpires having to uphold skipper Shakib's appeal. But the moment came a little too late for Sri Lanka and enough damage had been done by then. The point of origin for the Mathews-Shakib face-off was the 25th over, minutes after Sadeer Samarawickrama had been dismissed. Mathews was near the crease, adjusting his helmet and in the process, broke the strap. As it turned out, he was just too late to get ready to receive the ball that Shakib faced,

politely but firmly, said no. Mathews tried to argue his case again with the umpires, constantly pointing towards his helmet, but the decision had been made and a distraught Mathews walked off and threw his helmet in disgust close to the dugout.

"One of our fielders came to me and said if you appeal now he'll be out. Then I appealed and the umpires asked me if I'm serious or whether I am going to take it back. It's in the laws. I don't know if it's right or wrong. I was at war and I had to take a decision to make sure my team wins. Right or wrong, there will be debates but if it is in the rules I don't mind taking those chances," Shakib later told Star Sports during the post-match formalities.

The fire was ignited and the fight was on. Bangladesh were 57/2 chasing 280 when Mathews was handed the ball to bowl the 11th over. And the first ball that Shakib faced

off Mathews, he came down the track, attempted to go over cover and missed. And not surprisingly, Mathews had a few words to say. Mathews may well have had the final word and a major impact on the direction of the game had a diving Charith Asalanka not put down a catch at short cover. What followed was a record partnership between Shakib and Najmul Hossain Shanto, a 169-run association that

effectively sealed the game's fate despite Bangladesh's late jitters. Perhaps if Asalanka had held the catch, a fired up Mathews could have run through the Bangladesh batting order which had been brittle throughout this World Cup. But that wasn't to be and Bangladesh officially ended Sri Lanka's semifinal aspirations and it was Shakib who played a big part in that.

The ripples of the

equipment malfunction. And I don't know where the common sense went, because it's obviously disgraceful from Shakib and Bangladesh if they want to play cricket like that. Obviously (they) stooped down to that level, I think there's something wrong, drastically. After my helmet broke off, I still had five more seconds to go. And the umpires also have said to our coaches that they didn't see my helmet breaking. I mean, I was just asking for my helmet," said Mathews, who claimed there was enough proof to justify he wasn't in the wrong. "Up till today, I had utmost respect for him [Shakib] and the Bangladesh team. Obviously, you all play to win. And if it's within the rules, it's fine. But the rule clearly says, in my incident today, within two minutes I was there. We have video
